e, July 16—Beautiful a cool breeze blowing s greeted the Transmis gates this morning Ow ea y railroad traffic the o convene as advertised r t at 1 30 o clock this opened a splendidly At e big convention hall in temple was well filled s and visitors a great n were ladies Schrel ered by playing the now esip l March In the a es were separated and heir state banners Upon e seated the members al executive committee the officers of the con

chairman of the na e committee introduced Gresham of Galveston eted with rounds of ap president explained that legates were delayed in Cripple Creek and that ould not commence to ss until 1 30 o clock

Miller chairman of the e committee spoke of rs and entertainment ower parade will take o lock tomorrow morn ess will adjourn to vit

ion of the Texas dele h delegates that the n is the largest that sent from one state to tend a session of the

After the adjournment the delegates took in the sights of the city and district Shortly after noon the New Orleans delegation arrived and was warmly welcomed

Woman's Reception

Odd Fellows temple tonight was the scene of one of the prettiest features of the Transmississippi gathering The delegates together with their wives and daughters were the guests of the Woman's club at a grand ball and reception The rooms were beautifully decorated in appropriate colors and the large crowd present passed a very enjoyable time

The executive committee having the affair in charge was composed of Mrs J Maurice Finn chairman Mrs Kennedy secretary Mrs McKowann Mrs J B Neville Mrs B A Smith Mrs Saturly and Mrs J H Parks

The following gentlemen are the members of the floor committee L F Parsons M W Levy B F Parsons Gael Hoag H M Seigfried J Maurice Finn Robt Graham F M Woods Mayor Franklin Mayor Crane Henry Spears E C Troutman D C Weyand W L Shockey M Glauber C R Young P H Knowlton B R Addenbroke G F Kyner F W Sprague A B Shilling Robt Lyres W W Beltenmann C N Miller H Iszard Fred Berbower Larry Maroney T R McEnery T C Spears O B Finn Mr Vardaman W W Kirby Mr Porter, Albert Wagner Dr Whiting J B Neville B Tolman W F Booth M Tilney Frank Hangs F M Turner Dr Hereford F N Boynton H H Clark Captain Brinson A L Emberson Dr McKowen Emil Pfeiffer Mr Saunders Mr Lynch and Mrs G Arnold

ILED PROCEEDINGS OF AFTERNOON SESSION

Gazette
k July 16—Promptly at e Transmississippi con d in the convention hall s te p c After the in y Mr Scofield President n of the congress intro I J Crane of Cripple erded a hearty welcome Mayor Nelson Frank represented that city s e s and invited the dele o Victor on Friday and seves at Lone while in The delegates will be n the richest mines in tes and treated to under c s through tunnels and Frankli announced that ttee would be in charge and that the delegates s and daughters would me of their lives Gov nan was then called and well worded speech wel ny visitors to the state

ention hall there were le of which 1 000 were e convention The hall y decorated with red streamers and Ameri e Teller county band pon the platform s played patriotic airs e platform were the na f the congress together of the local executive

sham introduced Sena rs who with his elo ht remarks kept the in udience to the highest lo s discourse related n Purchase exposition la which he said l atest exposition of like led The speech also e sugar industry and le to the sugar trust particularly urged the e measures to prevent industry from bel e sugar trust which he dy made demands up ale dealers of Denver for a control of per gar business He re ruggle as a fight of home product against ufactured by coolie and hands of a crushing erence was then made to the deaths of Gov orge Q Cannon and heir lives in the Gal ster of last fall He ogy to the dead The d that this session of tter attended and has ation than any con-gress has had during the past six or eight years He spoke of the interest that has grown in the body and the important position it now holds in national affairs He stated that the west is furnishing the elements of a great and prosperous government and that it is therefore bound to receive all the benefits accruing therefrom

Ex Governor Fishback of Arkansas who has been a member of the congress since its beginning and who was its first president responded with fitting remarks to the addresses of welcome He referred to the wonderful ride over the wonderful railroad and to the scenery and stated that he for one was glad he came and was more than pleased with the welcome extended by Cripple Creek and the district He spoke of the work of the congress and stated that the delegates learned something new with each session He told the people of the district that Fort Smith Ark the young giant of that state invited them to visit it on their trips to the St Louis exposition

Governor Prince of New Mexico found pleasure in answering the words of welcome heard in the convention hall On no occasion had he been able to respond in such a heartfelt way as in Cripple Creek He confessed that he had a sin to make known to Cripple Creek people and that sin was his failure to come to Cripple Creek in the past No circumstance should have made it impossible for him to come he stated He made a pretty metaphor by referring to Cripple Creek as situated on its throne on the summit of the Rocky Mountains and in the very heart of the Transmississippi country It is a monument to American energy and any one who doubts should look up its past history and read the record where fire destroyed it twice and twice it rose Phoenix like out of the ashes said the speaker Galveston the city devastated by flood is here to receive the welcome of the city devastated by fire and this also shows the recuperative energy of the American people

Congressman Chester R Long of Kansas regretted that Governor Stanley of that state had found it impossible to be present to respond to the warm welcome extended He stated that it was the wish of his delegation to respond and that he was glad to do so Congressman Long told them how Senator Patterson a man differing from him politically was asking for the protection of one of the young industries of the western states He referred to the beet sugar industry and the protection that should be established to protect the western sugar from that of Puerto Rico and the Philippines He [illegible] the delegates it was their duty to protect the western industries for said he there are people at Washington always looking out for capital and the interests of the east

Ex Governor Seay of Oklahoma captured his audience with his witty and humorous remarks He stated that he had seen and heard the various governors throwing bouquets at the people of Colorado and his only regret was that the governor of North Carolina and the governor of South Carolina were not present He was going to stand by the gentleman who had been cleaning up "Sockless Jerry" Simpson of Kansas referring to Congressman Long He was in favor of protecting the beet sugar industry of the west

Secretary Francis then read his report which was referred to the executive committee President Walter Gresham then spoke at some length upon the cooperation of the western people and the advancement of the Transmississippi states if this method is pursued The irrigation of the arid regions transportation to the high seas plans to regulate railroad consolidations harbors and vessels merchant marine and ship subsidy were discussed separately by the speaker He told the delegates that the European countries had built up their mercantile marine with subsidy but that in his opinion American enterprise and capital would build up America's merchant marine without a subsidy If it becomes necessary to change the laws of the country to secure commerce the speaker was of the opinion that the laws should be changed The orient and the trouble in China were then discussed by the speaker who ventured the remark that the time is not far distant when America will assert her rights and will build up an immense trade in that section He was of the opinion that America must look to the orient for trade as two thirds of the people of the world live there The president then spoke of his home city on the gulf coast which notwithstanding the calamity of last fall is now handling more freight and shipping more goods than ever before in its history He spoke of the improvements that have been made and stated that the citizens of Galveston proposed to raise that city above high water It is to our interests to help build up this great country of the west so that we can handle the commerce of it

The report of Chairman Moses of the executive committee of Great Bend Kan was then read The discussion of credentials occupied some time but was finally amicably settled

Resolutions Presented

The following resolutions were offered at this afternoon's session of the congress

By James Cox of Missouri

Whereas The centennial of the purchase by Thomas Jefferson of the Louisiana territory is to be celebrated in 1903 by an international exposition at St Louis and a $5 000 000 appropriation has been made by congress and $10 000 000 has been secured by citizens of St Louis for this purpose and

Whereas The Transmississippi congress realizes that the effect of the event will be beneficial to the western states be it

Resolved That the Louisiana Purchase exposition be indorsed and pledged support and the attention of every state west of the Mississippi river be called to the importance of the event whether said state is included in the territory purchased or not

By H R Whitmore of Missouri

Resolved That the United States congress be urged to provide for a new department that of commerce and industries with representation in the cabinet in order that commercial interests shall have governmental attention

By H R Whitmore of Missouri

Resolved To urge amendments to the interstate commerce law to afford protection to the public carrier and shipper on account of the inefficiency of the present law to accomplish its purpose

By H R Whitmore of Missouri

Resolved That the decision of the postmaster general providing that fake newspapers no longer be allowed the second class mail matter classification saving $5 000 000 annually to the government be indorsed and that an attempt be made to secure the reduction of letter postage to one cent so soon as the revenue of the postoffice department will warrant it

By fake newspapers is meant those that depend on their circulation by guessing contests gift enterprises etc

By William W Bates of Colorado

Resolved To urge congress to regulate all trade whereby preference will be created for the employment of American vessels on the basis of American shipping for American commerce free of cost to American people it being the contention that one of the principal objects of the Constitution was the creation of an American marine for foreign trade and that the regulations we once had providing for our early marine have been unwisely repealed

By Ed F Browne of Colorado a resolution recommending to congress the presentation of a bill creating an executive department of mining and to do all in its power to secure its passage This resolution was offered on account of the importance that the mining industry is assuming as an adjunct to the prosperity of the nation

By Lewis of Missouri

A resolution urging congress to fix a $4 000 000 appropriation for water ways

By S E Wallis of Texas a resolution for a sufficient appropriation of congress to provide for jetties for the harbor at Galveston

By Senator T M Patterson of Colorado

Be it resolved by the Transmississippi congress That it is the plain duty of the people of the Transmississippi country and it ought to be their pleasure to use as far as possible American beet sugar as against the sugar of the trusts

Resolved That in the event of a struggle in congress between the sugar trust and its representatives and the beet sugar industry of the Transmississippi country it is the duty of senators and representatives from the Transmississippi states to work and vote in favor of the American beet sugar industry and against the schemes of the sugar trust

Resolved That the secretary of this congress be and he is hereby directed to transmit a copy of these resolutions to the senators and representatives representing the Transmississippi states in the congress of the United States

By Governor Prince of New Mexico a resolution for the establishment of a department of mines and mining similar to the department of agriculture

By Mr Webster of Louisiana a resolution to establish a close commercial intercourse with Latin America, a better mail service and closer commercial relations with the Central and South American states and favoring the construction of an intercontinental railway

By Story of Louisiana a resolution asking that congress appoint a special commission to consist of not more than one member from each state to formulate plans for the construction of the Nicaragua canal as an American enterprise and to place the canal upon a basis so that it will pay the United States government not more than 5 per cent per annum

The congress then adjourned until tomorrow morning at 9 o clock

THE PRESS OF COLORADO TO BE COLORADO'S GUEST

Preparations for the Great Editorial Banquet of August 2 Fast Being Completed----Local Press Committee Appoints Sub-Committees and Work Is Under Way

The press committee of the Quarto centennial held a meeting yesterday and made preliminary arrangements for taking care of the visiting members of the press It can be stated on the strength of what has already been done that representatives of the press of Colorado will be better taken care of at the Quarto centennial in this city next month that they have ever yet been at any great festal gathering

Arrangements are being made to provide for their headquarters where they can not only register and find their fellow workers from other cities but where they can have facilities for doing whatever work they desire to do while in the city can call messengers and receive aid and information regarding the features of the celebration and where everything possible will be done to facilitate the task that will be before them It is another aim of the local press committee to have all the clubs of Colorado Springs and vicinity thrown open entirely to the properly accredited newspaper representatives of the press of the state Not only will this make the visit in the city still more pleasant for the visiting press representatives but it will be one of the most valuable aids to the reputation of Colorado Springs for hospitality that could possibly be thought of A sub committee on headquarters was appointed consisting of B N Francis A C Bray and Claude Sachs The sub committee on entertainment consists of Phillip D Wilson chairman W P Epperson Mrs A N Frowine T B Pyles W A Carner Lewis Gaylord F F McKay and W P Kegl

A special committee on correspondence consists of Henry Russell Wray

This is one of the most important committees in the entire centennial lot It is the committee to which outside editors and other interested persons are to write for particulars on any feature of the jubilee Prompt replies to all letters will be forthcoming

Especial attention will be given by Mr Wray to having a complete representation of the press of Colorado at the banquet that is to occur at the Antlers hotel ball room on the evening of August 2 The sub committee on the banquet appointed from the general press committee consists of Mr Wray as chairman I N Stevens David Elliott and Phillip D Wilson A personal invitation accompanied by a complimentary ticket to the big banquet will go out today from this committee to each newspaper in the state of Colorado

Each paper in the state is requested and expected to have one male representative present at this editorial banquet and the most complete canvass possible has been made by the committee in order that no paper in however remote a section of the state shall be overlooked in the sending of the invitations In case any should be overlooked however its editor is requested to notify Henry Russell Wray of Colorado Springs at once who will see that that the oversight is rectified

A Definite announcement as to the the speakers and their subjects for this banquet can be made in a few days It is known that Theodore Roosevelt will be present and the list of speakers will include other very distinguished persons arrangements having proceeded already to the point where it can be positively stated that this banquet will be the greatest event of its kind ever given in the west

In addition to the editors of Colorado who will be present as the guests of honor of the occasion there will be present at the banquet 100 prominent citizens of the state each of whom will have paid $10 for the privilege of being there

Chairman Henry Russell Wray of the press committee will preside at the tables during the banquet and when the toasts begin Hon Wolf Londoner of Denver will officiate as toastmaster

HENRY RUSSELL WRAY,
Chairman Press Committee of the Quarto-Centennial.

PEKING DEADLOCK

Ministers of the Powers Admit That Prospect of a Conclusion of Negotiations Is Growing Darker.

Peking July 16 The ministers of the powers now freely admit that the prospect of a conclusion of negotiations is growing darker The situation is most serious as the deadlock has continued for more than a month The meeting arranged for today was postponed because it was apparent that the proceedings would be fruitless It was at the meeting of July 11 that the ministers had something in the nature of an agreement as to the indemnity but almost a radical difference developed between Great Britain and Russia as to the details of the plan of payment. All the ministers were in accord with the scheme early in June subject to the approval of their governments, but Great Britain disapproved the arrangement on the ground that it did not adequately protect her commercial interests The neutral ministers assert that either Great Britain or Russsia must make material concesssions before a conclusion of the agreement is possible Meanwhile the committees of the ministers are working upon comparatively unimportant details such as improvements in navigation, but if the financial question was settled the negotiations could be closed in a day

Li Hung Chang keeps sending strenuous requests to the ministers of the powers to present a complete plan He represents that China is willing to accept any reasonable terms and is chiefly anxious to know what the powers require, so that she may begin compliance with the terms

The ministers regard newspaper accusations of procrastination on their part as exceedingly unjust The governments and not the ministers are responsible the ministers say for the deadlock

UNEXPLAINED MOVEMENT OF GUNBOAT CONCORD

Washington July 16.—The navy department has received a telegram from Lieut Commander Henry Minett executive officer of the gunboat Concord announcing the arrival of that vessel at Seattle this morning The announcement occasioned no little surprise inasmuch as the Concord was recently ordered home from the Asiatic station and sent to Alaska to assist in enforcing the liquor laws in that locality and carrying on the work formerly performed by the gunboat Wheeling. Lieut. Commander Minett's telegram said that Commander Harry Knox the commander of the Concord was ill, leaving it to be supposed that this was the cause of the Concord's unexpected return to Seattle The department immediately wired for full particulars of this move of the Concord which has not the sanction of the navy department

A vessel's undirected abandonment of her post constitutes a rather serious offense under ordinary circumstances but pending further details of the occurrence judgment is suspended at the navy department

STRIKE OF THE STEEL WORKERS

Pittsburg July 16—The second strike day closes with the Amalgamated officials in a satisfied mood and claiming to have made good every promise as to results On the other hand the manufacturers will not say a word concerning the strike and refuse to be quoted in any way Repeated efforts to secure statements from President Corey of the American Sheet Steel company and General Manager I W Jenks of the Hoop company have been met with the response that there was no change and nothing to be given out

The Amalgamated people say that nothing has been said to them of a plan for mediation or arbitration and that they will continue to carry out their program as originally announced

The closing down of the Clark mill and of the Monessen sheet mill are looked upon as telling victories and an almost complete tie up of the three companies in the district

But one mill that at Monessen and one sheet mill at Duncansville remain at work

The fact that the National Tube men (non union) received a substantial advance in wages yesterday has caused discontent among the union men employed by the National Tube company at their Second avenue plant and at the Republic mill on the south side The men here think they are entitled to a similar increase To consider the matter meetings were held tonight on the south side and it is said a demand will be made

The following telegram was received tonight

Wellsville July 16—The Wellsville rolling mill was run and it will be run non union It will start tomorrow If it could not be run non union it would never be run at all

This statement was made today by P F Smith of Pittsburg district manager for the American Sheet Steel company He was here this afternoon and made an address to the striking mill men He told them they had no grievance that they had been well cared for in the past and would be in the future The announcement that the mill would be started tomorrow and started non union has given rise to no little speculation and uneasiness among the citizens Many of the strikers expecting prolonged idleness have left the city for hunting and fishing camps No new men have been brought in and how Manager Smith expects to start tomorrow is a matter for conjecture Today as yesterday only a few laborers were working

The foregoing is the first indication as yet given by the manufacturers that they were other than passive participants in the big strike What the result may be of an attempt to operate the Wellsville plant none of the local Amalgamated people will predict All they will say is that it cannot be accomplished

Wellsville is looked upon by both sides as an important point and developments are anxiously awaited by all

The position of the Tin Workers Protective association in the strike was settled today by the following telegram to the Leader

Elwood Ind July 16 Our association is bound by an agreement with the company to work providing they live up to their contract If the company introduce black plate worked by non union men our men will be called out The Amalgamated people will have our full support if necessary

George Powell

According to the official statement made by the manufacturers conferees who met the Amalgamated association representatives and failed to agree on a settlement of the strike the manufacturers did not refuse the Amalgamated association the right to organize their mills According to the declaration of President Shaffer of the association all that was asked of the officers was the right to organize the non union plants of the companies interested The strike therefor has not been clearly explained

Tonight President Shaffer when questioned regarding the position of the manufacturers on this point, said

"No matter what they now say the fact remains that they refused the Amalgamated men the right to organize their non union plants

He did not believe that the accredited statements on this point from Vice President Arms were correct

If they are and the manufacturers are willing to allow the Amalgamated association to organize the non union plants then I say the strike is all off We have never once asked the manufacturers to compel the men in their non union plants to join our organization We do not want to coerce men into the Amalgamated association If the manufacturers will abrogate that part of the contract with non union men in their mills that makes them agree to keep from joining our organization or any other remove the restrictions that are now on those men and allow us to quietly work unmolested among them and seek to induce them to come to us we will not ask anything further Our demand was that they should do this We asked that they sign the union scale so the men could become union"

BROADWAY PARK STAND BURNED

DENVER TEAM HAS NO PLACE TO ACCOMMODATE THE PEOPLE

Present Series With Kansas City Indefinitely Postponed Prospects for Remainder of Series Are Doubtful

Denver July 16—The grand stand at Broadway park, where the Western League ball games are played was destroyed by fire tonight The cause of the fire is not known but it is believed to have been of incendiary origin. The cost of the stand was about $3 000 It is expected that the remaining games of the series with the Kansas City team will be indefinitely postponed and perhaps all games scheduled at Denver for the remainder of the season will be transferred to other cities

CIRCUS MAN BANKRUPT.

Chicago July 16—W S Cleveland formerly a well known circus proprietor filed a petition in bankruptcy today alleging liabilities of $100 000 He is now and for some years has been in business in this city, The debts were contracted during his circus days

The Transmississippi congress at Cripple Creek was auspiciously opened

EARL RUSSELL.

All America is interested in the proceedings for bigamy against Earl Russell the English peer His trial has been finally set for July 18 and society is feverishly awaiting the result Many in America as well as in England sympathize with the unfortunate nobleman who declares himself to be innocent of any intentional wrongdoing

PENNSYLVANIA FIREMEN HAVE GONE ON STRIKE

Wilkesbarre Pa July 16—The strike order of President Mulcahy of the Stationary Firemens Association of Pennsylvania was promptly obeyed at 7 o clock this morning when 900 members of the organization in this section of the state refused to go to work Most of the strikers are employed as firemen at the coal mines and their failure to report for duty caused nearly all the collieries in the northern anthracite region to suspend operations throwing out of work it is estimated 35 000 men and boys Some of the individual coal operators conceded the demands of their employes on condition that the short hour day was not to hold if the men employed by the big companies did not get the same concessions

The big coal companies however refused to make any concessions The officials claimed that the demands of the firemen were unreasonable

The strikers held a meeting in this city shortly before noon Reports were received from all the districts and they showed that the strike from Pittston to Shickshinny in this (Luzerne) county was general and that the coal companies were unable to secure new men to take places of the strikers The best they could do it was said was to press foremen and fire bosses in to the service This was done at a great many of the mines The strikers claim that the engineers are friendly to them and that they will not work with non union men

At the headquarters of the operators it was claimed that the demand of the strikers would not be entertained The duration of the strike will depend upon the miners If they stand by the striking firemen the lockout may be a long one but if the miners return to work as soon as the companies fill the places of the strikers the strike will be lost to the firemen It is known that there is much friction between the United Mine Workers and the firemen The miners think that the strike is inopportune and that the firemen should have waited until April next when the present agreement between the operators and miners will expire, before making their demands

DROUTH IN KANSAS IS RELIEVED BUT NOT BROKEN

Topeka Kan. July 16—While rain has fallen during the past 24 hours in various parts of Kansas the drouth is not yet broken and little benefit has been experienced by the crops The rains have been small local affairs and their only effect has been to cool the atmosphere and freshen vegetation to a certain extent

This has been a moderately cool day the refreshing breeze from the south made the weather more bearable than any during the past month Two places in the state report a temperature of 10 but the average has been about 90

Reports of blighted crop prospects continue to come in

The corn crop is not the only thing at stake To obtain water for stock and for fire protection is a much studied problem and one that will not be solved until the coming of the rain Previous estimates of half a crop of corn this year will still hold good in case more rain comes within the present week

Judge Wellhouse the apple king says that late apples have been hurt but little while peaches are damaged more and small fruits failed almost entirely Apples and peaches are falling from the trees on account of the lack of moisture but otherwise are in fair shape

SAN FRANCISCO IS BELEAGURED

San Francisco July 16—Nearly 10 000 delegates to the International Epworth league convention which convenes next Thursday were received and registered by the local committee today They came from the east north and the south The first delegation arrived at break of dawn and from that hour throughout the day train loads were set down at the city's gates at regular intervals First came a special train from Philadelphia with 250 Pennsylvanians Then came the Wisconsin special at noon Four hours later came a special carrying nearly 500 from Chicago and Kansas City An hour and a half later the state delegations of Kansas and Alabama numbering in all 200 arrived. The big special from Iowa, Kentucky, Missouri Arkansas and Tennessee arrived at 8 o clock tonight followed by the Indiana special Although the convention is not to be formally opened until Thursday it was practically begun tonight with a concert at Mechanics pavilion the features of which were a chorus of 2,000 voices and the great organ built for Stanford university Fully 10 000 people attended the concert From tonight until the official commencement there will be constant meetings in the church and elsewhere

Dr Joseph F Berry general secretary of the league said today

I have attended all the conventions held by the Epworth league and I am able to say that never before has such preparation been made for the entertainment and comfort of delegates and never have matters been more nicely adjusted to insure the complete success of the program There seems to be nothing lacking

It is my prediction that the coming convention will be the greatest both in its achievements and in every regard pertaining to the general enjoyability of the sessions

THE WARRING FACTIONS OF DENVER DEMOCRACY

Denver July 16 At a meeting tonight of the Davoren wing of the Arapahoe county Democracy resolutions were adopted naming Chairman Davoren a committee of one to meet with Chairman Maloney of the Maloney faction and decide upon some one to act as chairman of the two committees The resolutions assert the right of the Davoren element to a majority of the judges at the primaries and demand that this right be given them The two committees are to remain in existence according to the proposition contained in the resolutions adopted tonight, but a single chairman chosen by the present heads of the two committees shall have the power to call the convention. At their meeting a week ago the Maloney people authorized their chairman to confer with Mr Davoren for the purpose of agreeing upon someone as head of the two committees The action of the Davoren men in demanding the control of the primaries the Maloney men say necessitates another meeting of their committee before this concession if made at all is possible It is said that unless the factions in Arapahoe county Democracy come to some agreement, that Milton Smith chairman of the state central committee will ask the executive committee to reorganize the county committee in which case it is believed the chairman will be some one not closely connected with either of the warring factions

ANOTHER SAMPLE OF NEW YORK JOURNALISM

Washington July 16—The newspaper report from New York to the effect that Henry Smith Craven grandson of the late Rear Admiral Craven U S N who was committed to the Bloomingdale lunatic asylum on Monday had become insane as a result of hazing administered to him while a student at the Annapolis naval academy is disproved by the records in the possession of the navy department As a matter of fact Mr Craven as shown by the record was never actually a student at the academy He was appointed to it in 1898 but owing to his physical condition never entered the institution

ANOTHER OIL WELL BROUGHT IN AT FLORENCE

Special to the Gazette.

Florence, July 16.—The Rocky Mountain Oil company this morning drilled into a large body of oil south of town at a depth of 2 200 feet, oil coming up in the hole for a thousand feet The well is located 1 500 feet northwest of the Weaver gusher This makes the second well brought in by this company within two months, The strike was made in the heart of the district where the largest producers are now being found Tubing was put in the hole today and pumping will start tomorrow The well is expected to produce 300 barrels per day The Fremont Oil and Gas company has a well going down between the gusher and the new strike which is now down 2 000 feet and expect to drill into oil any day

TELEGRAM OF GREETING

Canton Ohio July 16.—The president was to have touched a button tonight to start the organ in the Epworth league convention at San Francisco but as the meeting did not open until 8 15 there which is 10 15 here he did not care to go to the telegraph office at that late hour and sent a telegram of greeting instead

NEWS NOTES FROM DENVER

Supreme Court Asked to Annul Judge Palmer's Injunctions

THE SUIT AGAINST GRIFFITH

Subpoenas for Witnesses Show Trend of the Case—New Move Rumored in Revenue Case

Denver Bureau
Colorado Springs Gazette

Denver, July 16.—The fire and police board through City Attorney Orahood this morning filed in the supreme court a petition for a writ of prohibition against the district court of Arapahoe county and Judge Palmer to prevent the enforcement of his recent decision allowing the sale of [illegible] in [illegible]. The suit was [illegible] to come [illegible] between the [illegible] of the board and the city. Assistant City Attorney Bachtell had charge of the proceedings.

During the argument Milton Smith, attorney for Judge Palmer and the court, raised the question of the right of the supreme court to issue a writ [illegible] court. As soon as [illegible] the argument was stopped and [illegible] requested to file briefs on the subject. As soon as these briefs are filed the court will take the matter up. An early opinion is hoped for.

A special [illegible] states that Dr. H. S. Clark died at 9 o'clock this morning from the effects of an overdose of [illegible] Sunday evening. At 10 o'clock that night Dr. Clark sank into a deep slumber from which he never rallied. He was 54 years old and leaves three children [illegible]. He was formerly a [illegible] in Denver.

Subpoenas were served today for the following witnesses to testify in the suit brought by Richard Rollins of Colorado Springs against William H. Griffith of this city regarding a judgment for $3,000 which the former holds against the latter: State Treasurer Chipley, Deputy State Treasurer Thos. [illegible], George [illegible], vice president of the [illegible] National Bank and George Taylor, manager for Rollins & [illegible]. It will be seen that the witnesses include a number of persons who are supposed to have knowledge concerning the payment of the warrants by Treasurer Chipley.

A number of the progressive business men and farmers of Fort Lupton have formed a condensed milk company. The officers of the company are: President, F. A. Merrill; vice president, C. G. [illegible]; secretary, [illegible] St John; treasurer, [illegible] J. Rhole; general manager, J. B. Packard. Sufficient funds have been [illegible] for the erection of a building which will be 40x140 feet and two stories high. The new plant will be ready for operation [illegible]. It will have a capacity of 40,000 gallons of milk per day and will give employment to [illegible] men. Condensed milk, evaporated cream [illegible] will be the products.

It is said that the attorneys for the state will [illegible] proceedings [illegible] in the revenue case [illegible] Judge Dixon of Pueblo from trying the revenue case [illegible] the state [illegible] Attorney General Post and Special Counsel Roberts [illegible] will appear before the supreme court [illegible] a writ of prohibition against Judge Dixon [illegible]. The state [illegible] before the [illegible] if [illegible] the state applied [illegible] will be offered [illegible].

The state board of arbitration [illegible] the particulars of [illegible] strike today decided that [illegible] striking and that the con[illegible] in refusing to [illegible] will remain in force [illegible] previously arranged to [illegible] the hands of the [illegible] strike.

The [illegible] of the Colburn [illegible] has been ably settled and declared off. The settlement was reached at a conference this morning between J. B. Church, manager of the company, and the men themselves. Both sides granted concessions.

Two applications for writs of supersedeas were argued before the supreme court today. One was in favor of Tom Holland, who was sentenced to the penitentiary by Judge Malone yesterday for administering knock out drops. The other was in the case of Mrs. Barry of Cripple Creek, who is now serving a term at Canon City for stealing a dwelling house. Her attorneys made application for the writ some time ago and arguments were heard today. The attorney general's office assisted by District Attorney Trowbridge raised the point of the supreme court having the right to grant or deny such an application in a case where the defendant is already in the penitentiary. Both cases were taken under advisement by the court and will be passed upon later.

JOHN HAYS HAMMOND GUEST OF MR. WALSH

Special to the Gazette

Ouray, July 16.—John Hays Hammond arrived on the 5 o'clock train this afternoon and was driven in a carriage by Manager Benson to the residence of Thomas J. Walsh. Mr. Benson stated that Mr. Hammond would not visit the mine and will depart for the east tomorrow. It is supposed that his visit is a friendly one and has no reference to a sale of the Camp Bird. Mr. Walsh has been indisposed and confined to his house during the past two days, but is convalescent now.

FIRE DESTROYED THE DEPOT AT WHITEWATER

Special to the Gazette

Grand Junction, July 16.—The depot at Whitewater was destroyed by fire at an early hour this morning together with the contents. The structure as well as the telegraph office, express office and depot. How the fire originated is a mystery to Station Agent James Page. No night trains run over the narrow gauge and no fire of any kind was in or around the depot yesterday. Considerable freight and express were destroyed.

GLEN PARK

Special to the Gazette

Glen Park, July 16.—The Dankins quartet assisted by Emil Tiffero will give a concert at the auditorium this evening.

Miss Mabel Corne of Denver is spending the day visiting the Misses Sheland.

A crowd of the young people in the Glen had a picnic up Fern Glen this morning. The same party is to have a horseback ride to Monument this evening.

Mrs. A. C. Wright of Pittsburg, Pa.; Mrs. M. A. Robrisc, Miss Daisy Henry and Miss Edith Nicholson, Miss Blanche McConnell, Miss H. M. Wills, Miss B. F. Wills, Miss L. M. Stoop, Miss Jane A. Nowe, Miss Carry B. Bower, Miss Fanny Manley, all of Denver, and Miss Hattie L. Hale of Cleveland, O.; Miss Mabel Edwards of Carbondale, Ill., and Miss Lizzie Colquhoun of Canton, O., are the latest arrivals at the Y. W. C. A. home.

Dr. Kiley gives his second Emergency lecture today.

Dr. B. B. Tyler gives his second lecture on the Poetic Books of the Bible this afternoon.

WOODLAND PARK

C. C. Hirons and wife were in town from their camp on Bald mountain last Saturday. Mr. Hirons has been suffering from a lapse of bad air for some time but is now operating slowly. He reports work progressing satisfactorily on the Gold Standard at a depth of 115 feet.

Dr. Weight and daughter Louise of Leon, Ia., are visiting at Parshall's camp near Lanter City. The doctor is a prominent medical practitioner and Miss Weight is an elocutionist of marked ability, having carried off the gold medal at the Iowa state oratorical contest on several different occasions.

Mrs. C. J. Coxe of Burlington, Ia., who spent several months at the Kansas camp last summer, returned last Saturday for another summer's outing in the hills, where she has a host of friends who will gladly welcome her back.

O. A. Young of Springer, superintendent of the Electric Milling and Mining company of Chicago, Ill., was in town on business last Saturday.

J. W. Green and wife of the Kansas camp are stopping at the Crest hotel for a few days. The judge is taking a well earned rest from his labors in the hills.

Forest Supervisor Carter spent several days in the southern part of the Pike's Peak reserve last week and took in Woodland on his trip where in conjunction with Ranger Templeton he took a look at the forest reserves in this vicinity. This locality has been very fortunate so far in the way of forest fires and it is to be hoped that it may continue so.

Major Tefer will resume work soon on the C[illegible] and push operations.

Judge J. W. Green has secured a bond and lease on the Stone Peal property west of town. The judge has remarkable staying qualities and will run a big bluff or locate the ore shoot and make a shipper.

Work is progressing rapidly on the Primrose with a full crew of men.

Friends of Mr. and Mrs. Ben Stanton will be sorry to learn of the death of their infant daughter, which occurred last Thursday evening. The little body was laid to rest in the Woodland cemetery after a few days of earth life.

Engineer Meek is busy in the sand stone district this week.

A few tourists find their way to this beautiful town and at once fall in love with it and its environments. There is not a better or pleasanter place to spend a few weeks, months or years any where in the mountains, either in summer or winter.

Mrs. McPherson made a business trip to Florissant last week and made the home drive of 60 miles in one day.

CROWNED QUEEN OF ELKS' STREET FAIR

COLORADO SPRINGS GAZETTE BOOTH, ELKS STREET FAIR AND MIDWAY

Cripple Creek, July 16.—In the presence of 5,000 people on the Midway at 8 o'clock this evening Miss Sadie Finnegan was crowned queen of the fair and flower carnival. Miss Finnegan is a popular young lady of this city and her many friends were all on hand to witness the coronation. Previous to this event Miss Finnegan with her retinue of maids of honor and a girl parade through the principal streets of the city. The queen dressed in pure white was seated in a carriage drawn by two white horses. In the carriage with her were Mayor Crane and Director General of the Fair W. J. Blake. The members of the B. P. O. E. lodge mounted on horses and attired in their official uniforms of purple and white followed. Then came the maids of honor in carriages. These young ladies were also dressed in white. The procession headed by a band playing its best airs made its way through the magnificent entrance to the Midway and stopped at the stand especially arranged for the coronation ceremony. The queen, who looked every inch her position, took her place upon the throne and the maids of honor took their positions beside her. The stand was decorated wholly in white and the queen and her maids of honor also dressed in white made a very pretty picture. Mayo Crane presented the queen to W. J. Blake, who in turn instructed Miss Ida Swanson, Victor's maid of honor, to crown her. The crown was placed upon the queen's brow and the applause of the thousands of spectators. The crown is a work of art and is stated to have cost $150. It is a delicate affair of white satin covered with a pretty design of rubies, emeralds and diamonds. The maids of honor to the queen are: Miss Copes, Miss Hester Murray, Miss Daisy Day and Miss Ida Swanson. After the ceremony the queen and her maids left in their carriages for the Transmississippi ball at Odd Fellows hall. During the remainder of the week Elkdom will be ruled by Miss Finnegan the queen.

The Elks fair continues to draw the crowds. Tonight the midway was crowded with thousands of visitors and there is one continuous round of pleasure for all.

BIJOU BASIN

Mr. Henry Jameson has returned from the races.

M. A. J. Dowling was a caller in Elbert on last Friday evening.

Miss Addie Middlebrook and brother, who is visiting her from Kansas, visited in the Basin recently.

The Elbert county commissioners were in the Basin Friday looking up some roads.

The El Paso county commissioners were also in the Basin last week looking after the interest of the roads.

Mike McCormack is stopping in the Basin.

Mr. Ernest Wilmott has employment at the cheese factory.

DYSPEPSIA
Is not incurable as many people suppose. Hostetter's Stomach Bitters has never failed to cure the worst cases. It cleanses the system of all impurities, enriches the blood, makes strong nerves and cures constipation, indigestion, biliousness, liver and kidney troubles. A dose before meals will prevent belching or sourness of the stomach. Try it and be convinced.
Creates a Hearty Appetite. HOSTETTER'S STOMACH BITTERS

FALCON

Misses Lillie and Margurite Dyer returned from Denver Friday. They have spent the last month visiting friends in Denver and Boulder and report a most pleasant time.

The K. of P. held a public installation of officers on Thursday evening. D. T. Cuthbert as installing officer installed the following: C. C., Harry Dyer; V. C., George Walker; prelate, Alex Stewart; M. of R. C., W. M. Henderson; master at arms, J. T. Alexander; O. G., Benj. Robinson. Afterward a lunch consisting of strawberries, ice cream, cake and lemonade was served and a very pleasant evening spent.

D. T. Cuthbert went to Roswell on Thursday morning and was checked in as agent there. He expects to be there two or three days. Miss [illegible] is in charge of the office at Falcon during his absence.

Miss Nellie Dotson came up from Roswell Thursday to be present at the K. P. entertainment. She was the guest of her aunt Mrs. Sorrenson.

Mr. J. N. Wharton came up from the Cuthbert ranch Saturday. He reports it very dry down there.

Mr. J. G. Butler came home from Liberal, where he has charge of the R. I. steam shovel, to spend the Fourth with his family.

Mr. Logan and son George were in the Springs on Monday.

Fred Palmer of Roswell came up Monday afternoon and spent the night at the home of D. T. Cuthbert.

Will Griswold, wife and baby Cleo, who have been visiting Mrs. Griswold's mother and sister Mrs. Jackson and Mrs. Brown, returned to their home at Coldfield on Wednesday.

Mrs. Patterson was a Springs visitor on Wednesday.

Mr. Snlleman, traveling auditor for the Rock Island, was a visitor at the local office Wednesday afternoon.

The Rock Island and C. & S. have taken up the transfer tracks but still have track connection as they have left the Y.

Mr. Charles Holsington is here again as pumper for the C. & S.

Mr. Connar, section foreman at Manitou Junction for the C. & S., has been transferred to Parker and Mr. Stewart has charge of both sections at present.

WEEKLY CROP BULLETIN

Denver, July 16.—U. S. department of agriculture climate and crop bulletin of the weather bureau, Colorado section, for the week ending Monday, July 15, 1901:

The past week has been warmer than the seasonal average throughout the state. In the southern and western counties the excess was about 4 degrees and in the north central section and extreme northeastern counties from 6 to 8 degrees. Readings of 100 degrees or higher were attained in the western counties, in the Arkansas valley and along the eastern border. The rainfall has been scattered and light though beneficial showers are reported from Larimer, Jefferson and Garfield counties.

The harvest of winter grains is general and many fields of early sown [illegible], rye and barley are nearly ripe. The second growth of alfalfa is beginning to bloom in localities. Irrigated crops and early corn and potatoes continue to improve but late seedings and plantings on uplands are beginning to suffer from lack of moisture. The outlook for tree fruits continues favorable; early apples are turning and apricots are in the market on the western slope. The water supply is diminishing rapidly and late priority ditches are practically dry in all districts. Pasturage is good as yet but many correspondents report ranges drying rapidly.

INDIAN EDUCATORS

Buffalo, N. Y., July 16.—The convention of Indian educators resumed their discussions of the problem of Indian education this morning with fully 500 delegates present representing all sections of the United States. S. M. McGowan, superintendent of the Indian school at Phoenix, Ariz., delivered an address in which he showed how great the irrigation is needed by the Indians in the arid regions of the west and argued that the government should provide it.

PENSION BUSINESS

Washington, July 1[illegible].—Reports have been received by Commissioner Evans of the pension bureau from all the pension agents of the country showing the entire pension business transacted for the fiscal year ending June 30 last. The showing [illegible] compared with 1900 follows:

The appropriation for [illegible] two years was the same, $144,000,000 for each year. The expenditure for 1901 was $138,[illegible]31 [illegible], an excess over 1900 of $[illegible]. During the year the pension roll was increased to the extent of 4,[illegible] names, making a total of 99[illegible],534. The deaths among pensioners numbered 43,0[illegible] [illegible] 2,5[illegible] more than in 1900.

The records show that for the year 4,[illegible]10 claims were filed on account of the Spanish-American war. Of these [illegible] were allowed and [illegible] were adjudicated and rejected.

Prosperity and the Economic Trend.

Prudent and careful management through a period of several years in which good crops and good prices have very generally prevailed has wrought a marked transformation in the farming states of the Mississippi valley. Mortgages have been so generally paid off that what was once the immense business of loaning eastern money on western farms has been almost entirely eliminated. The west itself has an ample amount of free capital and nowadays when farmers wish to anticipate the future by borrowing money to make improvements they can find plenty of money in their own neighborhoods to be loaned at easy rates on good security. One result of these prevailing and favorable conditions of agriculture and business has been to dull the keen edge of popular interest in subjects related to the financial and industrial policy of the country. Great consolidations of railroad systems are going steadily forward under these prosperous conditions without exciting the amount of opposition from so-called anti-monopolists that movements of a far less significant and even revolutionary character were accustomed to provoke only a few years ago. The Wall street panic of the early part of May seems not to have disturbed the actual business life of the country to any extent whatever. It checked for a time the spirit of wild speculation on the stock exchanges and such a result was desirable rather than otherwise. More lately the principal causes of speculative activity have been the reports that one railroad or another was about to be purchased for amalgamation with some larger system. In our next number [illegible] expect to [illegible] from one or more especially competent contributors a summing up and review of what has actually taken place in the United States in the last two years in the direction of railroad consolidation. Each month moreover adds new chapters to the record. The remaking of the railroad map of America marks a great epoch in the history of transportation.—(From "The Progress of the World" in the American Monthly Review of Reviews for July.)

In Old Ben Franklin's Day

The sleeping girl now and then comes to the front with one of her prolonged slumbers of several days duration and one is reminded of the feat of Franklin as he himself tells it. The philosopher in this case is entitled to public confidence. But an unknown witness would not be credited.

Monday, June [illegible], at Southampton, I went at noon to bathe in Martin's salt water bath and floating on my back fell asleep and slept for over an hour by the watch without sinking or turning over, a thing I never did before nor should hardly have thought it possible.

In another place the wise man of his day and generation had something to say regarding a class of people that is numerous, represented at the present time.

"There are croakers in every country boding its ruin. Such a one lived in Philadelphia who said the city was sinking, in place, the people half bankrupt and new buildings and rents high for the most part being fallacious. At last I had the pleasure of seeing him give five times as much for a house as he might have bought it for when he began croaking."—(Joe Mitchell Chapple in "The National Magazine" for July.)

Qualities that Make Fruits Healthful.

The acids mostly found in fruits are malic, tartaric and citric acids combined with potash or soda so as to form acid salts. Malic acid predominates in apples, tartaric in grapes and citric in lemons, oranges and grape-fruit. The ash of fruit is rich in potash, lime, magnesia and iron. The agreeable aroma of fruit like oranges, strawberries and other fruit is due to the presence of essential oils and ethers. All fruits contain more or less pectin, cellulose and an insoluble substance called pectose which by action of a ferment in the plant itself is converted in the process of ripening into pectin which forms the main constituent of fruit jelly. Fruits are laxative, diuretic and refrigerant. The nutritive value of any fruit depends chiefly upon the starches and sugar which it contains. Dates, plantains, bananas, prunes, figs and grapes contain the most starch and sugar and therefore are the most nutritious foods. Cherries, apples, currants, strawberries and grapes contain considerable vegetable acid, making them valuable as blood purifiers.

Lemons, limes, grape-fruit possess about the same general properties; they contain a great deal of potash and other salts and abundant vegetable acids. They are beneficial in gout and rheumatism, especially lemon juice, which is highly recommended because the citric acid in decomposing in the stomach oxidizes such elements as would tend to form uric acid, forming instead uric and carbonic acid, two substances capable of easy excretion. The addition of lemon juice to cereals and broiled or fried fish renders them more easily assimilated, as it has a specific action in promoting gastric digestion. The juice of one or two lemons put in a tumbler of water with a little sugar is a refreshing and cooling drink, especially in fevers.

Lemons peeled, iced and freed from pits, if placed in a bowl with sugar sprinkled between the slices makes an excellent remedy for sore throat. Mild lemonade, if not too sweet, diminishes thirst more than any other beverage. Pleasant cooling drinks may be made with lemon juice and aerated waters, such as vichy, apollinaris or carbonic acid water. Instead of plain water or effervescence may be produced by the addition of baking soda, about half a teaspoonful to a tumblerful of water and the juice of one lemon. This is excellent to cleanse the mouth and counteract nausea and is beneficial to the stomach.—(Mrs. Gesine Lemcke in July Ledger Monthly.)

Beautiful Rooms and Fine Light

NEW COMPANY TO BORE FOR O

Colorado City Men Organize W Capitalization of $100,000 to D velop Natural Resources.

The Colorado City Oil and Gas company was organized last night with a capitalization of $100,000 divided into 1,000,000 shares of 10 cents each. The officers of the new company are: Dr. R. S. Briscoe, president; Col. H. S. Irvay of Colorado Springs, vice president; Adam Geiger, treasurer; Judge John McCoach, secretary; M. T. Burwell, N. B. Hames, W. P. Epperson, J. M. Steward and Charles Bowman, directors. The manager of the company was not elected last night but it is more than probable that this office will go to W. P. Epperson.

Last night's meeting was held in the office of the Rustic Home Investment company on Colorado avenue and was attended by about 30 representative business men of this city and Colorado Springs. The meeting was opened by a few remarks by Mr. Epperson, who managed the former gas company with such success. Mr. Epperson spoke on the need of an organization and that at once. The officers of the company were then elected. By motion a majority of the board of directors was constituted a quorum.

A committee consisting of W. P. Epperson and Adam Geiger was appointed to solicit stock in the new company. A canvass will be made and advertising will be done with this end in view and it is hoped to raise money enough to begin work in a very short time. This committee was also empowered to secure leases on property in Colorado City and vicinity on which wells may be sunk to the best advantage.

The history of o[illegible] this city is well know[illegible] toll in these co[illegible] company is determ[illegible] search for gas and oil [illegible] convinced that the [illegible] section or until they [illegible] That there is gas [illegible] onstrated by the opera[illegible] company eight years [illegible] thought that it exists [illegible] titles. A few specimens [illegible] rock were on exhibit [illegible] meeting. The rock [illegible] of oil until agitated by [illegible] a strong odor of oil is [illegible]

After thoroughly [illegible] matter the company [illegible] again next Friday [illegible] place.

What to Do Until the Doctor Arrives

It is often hours after a physician is called before his arrival and in cases of colic and cholera morbus something must be done to relieve the pain or the attack may prove fatal. Mr. S. B. Elzer of Monnett, Mo., relates his experience in a recent letter. "One of my children was taken with cramp colic and was suffering severely," he says. "I telephoned for a doctor, then gave a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy; a few minutes later a second dose of the remedy. Before the doctor came the child was relieved and I really did not need the doctor. Had I lived in the country and without this remedy the child's suffering would have been much worse." For sale by all druggists.

Travel and Elevator

By collision or other accident causing material damage to a passenger elevator, a surface or elevated railroad or street car, steamboat, or other public conveyance provided by a common carrier for passenger service only, within which the Assured may be riding at the time of such accident in a place regularly provided for the transportation of passengers; or,

Burning Buildings

By the burning of a dwelling, hotel, theater, store or barn in which the Assured may be burned by fire or suffocated by smoke, but this shall not apply to or cover the Assured in the performance of duty as a paid or volunteer fireman; or

By Sunstroke or by Freezing or Anaesthetics

As the result of any anesthetic when administered by a duly qualified regular physician for the purpose of performing a surgical operation except that if the Assured be a female, this clause shall not apply to any operation during confinement or childbirth; or

Boiler Explosions

By the explosion of a stationary, locomotive, marine or portable boiler, when such explosion causes the destruction of such boiler; or

Runaways

By the running away of the horse or horses attached to any vehicle driven by the Assured at the time of such runaway; or

Burglary

By violence at the hands of any burglar when robbing or attempting to rob, by forcible entry, the dwelling of the Assured.

$5.00 WEEKLY BENEFITS

The sum of Five Dollars ($5.00) per week for a period not to exceed five consecutive weeks, if the Assured shall be immediately, continuously and wholly disabled and prevented from performing each and every duty pertaining to any and every business or employment, by external injuries resulting from the following causes, namely:

Travel and Elevator

By a collision or other accident causing material damage to a passenger elevator, a surface or elevated railroad or street car, steamboat, or other public conveyance provided by a common carrier for passenger service only, within which the assured may be riding at the time of such accident in a place regularly provided for the transportation of passengers; or

Bicycles

By the accidental collision of a bicycle, ridden by the Assured with any vehicle other than a bicycle; or

Runover

If the Assured shall be accidentally run over by a cable, electric or steam railroad or street car, or locomotive, providing he is not boarding or alighting from same while it is in motion, nor attempting to do so.

This Free Policy Gives You $1,000 In Case of Death Within the Year by Accident

This Free Policy Gives You $5 a Week while temporarily injured by accident, for a term not exceeding five consecutive weeks.

This Free Policy Is in a Strong, substantial company with surplus and reserves of $2,216,340.09.

How to Get a $1,000 Insurance Policy Free

You take the Gazette now and pay sixty cents a month for it. In a year you pay $7.20 for The Gazette or some other paper. To get this policy you have simply to pay your subscription to the Gazette in advance instead of month by month, and your Gazette costs twenty cents less when paying yearly than when paying monthly. The Gazette pays the premium on your insurance. You pay for The Gazette for six months or one year and receive from The Maryland Casualty Company a $1,000 policy with a receipt for the year's premiums, that's all, except that you must be over 16 and under 65.

APPLICATION BLANK, FILL OUT AND SIGN.

Subscribers must be over 16 and under 65 years of age to avail themselves of this offer. Fill out this blank, write name and address plainly, and the policy will be delivered within a few days. Applicants must remit $3.75 for six months subscription and $7.00 for one year's subscription with this application, for which we will deliver The Daily and Sunday Gazette from the date of signing the application.

This policy does not insure any person who is either partially or wholly blind, deaf, crippled, paralyzed, insane, or subject to epilepsy, fits, sleep walking or vertigo.

(THE APPLICANT MUST SIGN THIS APPLICATION.)

This policy does not cover injuries, whether fatal or non-fatal, sustained by any railroad employe (other than executive officers and office force) while on duty, nor injuries, whether fatal or non-fatal, caused or contributed to by disease, voluntary exposure to unnecessary danger, or violation of law on the part of the Assured; nor injuries, whether fatal or non-fatal, sustained by professional bicycle riders, or by any bicycle rider while engaged in racing, or by any bicycle rider while engaged in police patrol or messenger service; nor injuries received by the Assured while intoxicated or under the influence of any drug, except as provided under the head of Anaesthetics; nor disappearance.

Any Subscriber to the Gazette, New or Old may take advantage of this proposition. Just pay $7.00 for the Gazette a year in advance or $3.75 for six months in advance, and you get both the paper and the Insurance Policy. If you don't already take the Gazette regularly begin it now. It's cheaper to take it by carrier than to buy it on the street, and you're sure of having it every day. There is no better newspaper in all of Colorado than the Gazette. No other Colorado paper is so widely quoted as the Gazette. No Colorado paper gives as much news as the Gazette. You may not agree with the Gazette politically, but you'll like and respect the fairness and strength of its policy. You'll appreciate the reliability of its news, and the absolute impartiality with which it is handled. You'll learn more of the resources of Colorado, and the opportunities of Colorado Springs through the Gazette than through any other Colorado paper.

THE GAZETTE STANDS FOR The substantial promotion of Colorado's interests; the growth and upbuilding of Colorado Springs; honesty, economy and equality in our governmental institutions; reliability, fair play and purity in its news. The Gazette is more widely read than any other Colorado Springs paper. It is adding readers and admirers every day. Having for its aim the highest possible standard of intellectual, moral and news-worth it day by day grows constantly better and greater. It costs the same as inferior newspapers and gives you

D. V. DONALDSON ELECTED PRESIDENT AT A SALARY OF $3,000 PER YEAR

Mr. Bolles Declined to Allow His Name to Go Before the Exchange for Re-election---The Committee Adopts a Resolution Regretting His Action---Mr. Donaldson Will Take Charge at Once.

At a meeting of the committee of the Colorado Springs Mining Stock association held yesterday afternoon D V Donaldson was unanimously elected to the office of president at a salary of $3 000 a year. The meeting was an enthusiastic one and it is confidently predicted that a prosperous year is ahead of the association.

Previous to the meeting Mr R J Bolles, the retiring president had had a conference with Vice President J A Hayes at which he was firm in his stand not to allow his name to come before the committee for re-election and accordingly a communication to that effect was presented to the meeting. It was learned with considerable disappointment by all the members of the governing committee even if they favored another candidate that Mr Bolles would not consider serving another term and the following resolution was unanimously adopted with a request that the secretary mail a copy to Mr Bolles.

Resolved That we extend to R J Bolles the retiring president our warmest thanks for his faithful intelligent, able and conscientious services to this exchange from the time of its organization and regret that he cannot see his way clear to allow his name to come before the exchange for re-election.

Mr Donaldson, in view of the fact that the office was tendered him unanimously, the members of the committee feeling that there was no other available person so well qualified for the position did not see how he could decline it and his informal acceptance has been presented. He will take charge this morning or as soon as he can conclude some of his private business which is pressing, as Secretary Kinney leaves today for a much needed vacation.

A report was made to the committee by W A Otis and J D Ford the two gentlemen who had been appointed to conduct the regular semi annual auditing of the books of the exchange and also by Expert Accountant H H Mitchell who had made a most minute examination and reported everything to be perfectly correct. The reports were adopted by the meeting.

No other important business was transacted excepting the appropriation to assist the drilling contest which is reported elsewhere on this page and which is to be subject to a vote of the members today. Various other appropriations were requested, but no action was taken.

ACACIA RECEIVED $2,300 IN ROYALTIES LAST WEEK

Good Ore Is Coming From the Old Wrockloff Shoot, and a New Ore Body Has Been Opened in the Clark Lease.

The several leases on the Burns claim of the Acacia company are making a very satisfactory showing and the company is receiving generous royalties every week. Returns have just been been received from one car of ore recently sent out from the Goddard lease formerly operated by Mr Wrockloff which was settled for at the rate of $130 in gold to the ton. The royalty paid to the company on the one car was $700. Thirty tons of ore is being shipped this week which is expected to run between five and seven ounces in gold to the ton. This ore is coming from the old Wrockloff shoot in the upper workings. In upraising a considerable amount of the ore has been exposed which had been overlooked by the former lessee. The ore on the bottom level however, has not been located.

Settlements just received on two cars marketed from the Halvey lease show values of $105 in gold to the ton and the royalties derived from the two cars amounted to a little more than $1 [illegible] From the Hines lease a considerable amount of ore was marketed last week the royalties on which amounted to $[illegible] The ore from these leases is running between $40 and $[illegible] Altogether the company received $2 300 in royalties last week all from ore which was marketed during July.

From the old workings the lessees are sending out 20 tons of five ounce ore today and two cars of low grade which will average $30 in gold to the ton.

A very good body of ore has just been opened in the Clark lease which is one of those in charge of Mr Hines. At a depth of 500 feet from the surface a shoot has been opened near the Pharmacist ground which will average two ounces in gold to the ton. This is the most encouraging development which has taken place on the property for some time and the lessees are feeling very good over it.

From the Burns shaft Carr and associates are drifting into the south end of the claim at a depth of 300 feet from the surface and have now accomplished about [illegible] feet of work.

The Burns claim is being actively developed with better results than have been obtained for several months. The showing of ore in several of the leases is exceedingly encouraging and the royalties which the company is receiving is testimony of the value of several of the shoots.

COLUMBIA SHIPPING HEAVILY

Sixty Tons of Ore a Week Is Now Being Produced, and This Will Soon Be Increased to 100---Showing Continues to Be Good.

The surface improvements on the Cripple Creek Columbia property have now been practically completed and it will be possible to materially increase the output for the property very shortly. The enlarged ore bins have been in use for some time and the property is now maintaining an output of 60 tons a week which is by many tons the largest output which the Columbia has ever made. The ore is practically all coming from the new level run at a depth of 400 feet from the surface. Connection was made with the winze sunk from the 340 foot level some days ago, and now the lessees are taking out the ore from each side of the winze in the vein which shows up entirely as well as it did with less depth. The ore is running about $30 in gold to the ton, none of it having been settled for at any less figure. There is not being any attempt made to raise a higher grade all of the ore being put over the screens.

The property is under lease to the Solitaire Gold Mining company which will hold it for about eight months longer. In that time the lessees hope to get out a very good amount of the ore. For almost two years they had developed the ground at different depths with little more than fitful occurrences of ore to encourage them. It is their intention to sink the shaft to the [illegible] foot point just as soon as the work of the present depth is well under way.

The meeting of the El Paso company which will probably decide to buy the Columbia claim for 525 000 shares of El Paso stock will be held July 20 and until then no new arrangements will be made to develop the claim through the El Paso shaft but the development of the property by the El Paso company after the Solitaire lease is expired will be very thorough and energetic.

BONNIE NELL IS SAVING ORE

The Shaft Is Now 400 Feet Deep Where Good Values Are Again Encountered---A Trial Shipment Goes Out the First of the Week.

The shaft on the Bonnie Nell property on Raven hill has now been extended to the 400 foot point at which depth the vein has again appeared in the shaft showing very encouraging values. Work is now in progress and nearing completion of timbering up the shaft to the present depth and afterwards a sump is to be sunk and a station cut out preliminary to doing quite extensive development work at this depth.

In the work of sinking the shaft some ore has been saved and this is to be shipped the first of the week. A platform has just been constructed on the surface and the ore will be marketed to test the values just as soon as possible. The assays have been running as high as $160 in gold to the ton although it is not anticipated that the ore will average anything like this. At the same time the managers of the work are most confident that the shoot is a permanent one and that it will show very satisfactory values when shipments are started.

The Bonnie Nell is in the immediate vicinity of the Moose property and the vein which has now been opened and which runs parallel to that which the Moose so successfully mined several years ago is the extension of that opened in the Jo Dandy. The company is conducting the work on its own account at this depth although in the upper levels lessees are at work in two promising veins one of which is presumably the same one which has shown the good ore at the bottom of the shaft.

The property has the reputation of having some of the best built workings in the district. The shaft and drifts are all much larger than those in the majority of prospects and the timbering has been done excellently. It is thought that there is no property in this vicinity which has the same encouraging prospects as the Bonnie Nell.

M. J. T. ANNUAL MEETING

The annual meeting of the M J T Gold Mining company was held yesterday afternoon in the offices of the company. Out of the total amount of stock outstanding 1 150 000 shares there were represented at the meeting either in person or by proxy about 800 000 shares of stock. The meeting was entirely harmonious and the following directors were chosen to serve the company for the ensuing year R P Davie J I Collier P P Day T J Bendle and J H House.

The report of the president which was submitted to the meeting covered the history of the company since its organization during which time there has been no meeting of the stockholders, related to the various actions of the directors in settling adverse suits and acquiring additional property and the actions of the directors were ratified. No extensive work has been done on the company's property consisting of 18 acres on Gold hill adjoining the Key West ground so there was little to report about the condition of the claims but there was a unanimity of sentiment that the ground was well worthy of active exploration and there was some discussion as to the best way of getting it under active work. It is probable that some decisive steps will be taken in the near future.

The treasurer reported that the company was slightly in debt, although there was some 4 000 shares of stock in the treasury. Action was taken, however which puts the company entirely out of debt.

The new board of directors will probably meet today to elect officers.

CHAMPION DRILLERS WILL CONTEST HERE

For the Most Handsome Prizes Ever Offered to Miners in the State of Colorado Will Be Witnessed by Thousands

All the rock drilling champions of the state will be in Colorado Springs during the Quarto centennial celebration.

The greatest contest of its kind ever held will be seen and nowhere will such handsome prizes have been competed for.

The idea of a rock drilling contest has taken on like wildfire in this city and it is bound to be witnessed by enormous crowds. It is proposed to have a huge piece of Gunnison granite erected on a platform which will be placed between the grand stands. Here the single and double teams will do their work urged on by the plaudits of the crowds. The single handed champion driller of the state lives in Cripple Creek and has signified his intention of being here the champion double handed team are at Leadville and say they will come down the champion double handed team of San Juan are in Ouray and they are to be here also.

The drilling contest is a splendid idea. It will be the first time that Colorado Springs the great mining center of Colorado has made a serious effort to entertain the miners. As a result the city will be visited by many hundreds of our friends in the mountains who like nothing better than to see such a contest. The prizes are to be very handsome although the exact schedule has not yet been made. They will however be quite numerous and given for different classes in single and double down drilling as well as uppers.

At the meeting of the governing committee of the Colorado Springs Mining Stock association held yesterday a very handsome sum was voted towards the cost of the contest subject to ratification by a majority of the members of the exchange. Another handsome donation has been made by the Quarto centennial committee and it is expected that there will be no difficulty to secure the remainder of the required amount from individuals and mining companies. From $1 500 to $2 000 is needed to carry the affair through with success and do it better than it has ever been done before—which is the only way Colorado Springs wants to do anything.

ONE CHANCE FOR KLONDIKE

Stockholders Must Contribute 25 Cents Per 1,000 Shares, or All Is Lost---Suit Comes Up July 25.

A circular was received in this city yesterday from the members of a committee appointed by the Cripple Creek exchange to inquire into the sadly disordered affairs of the Klondike Cripple Creek and Golden company. In citing the various disasters which the company had suffered at the hands of unscrupulous persons in the way of overissuing the stock to the amount of some 1 000 000 shares and the alleged jumping of the Klondyke claim the details of which are well known in mining circles the circular goes on to state that the committee has appointed an attorney to file an adverse against the location of the Cape Nome lode and that the case is set for trial on July 23, 1901.

As there are urgent expenses the circular requests contribution on the part of stockholders of 25 cents for each 1 000 shares which the committee states will be sufficient to defray all the expenses. They also state that they have a good chance of coming out victorious. This contribution which is a very modest request compared to some which have been solicited by other mining companies is the only alternative for Klondike stockholders. If they contribute (and it must be done by July 20), they may save what they have invested or a portion of it. If they do not contribute all is lost. The committee is working hard to save the property and charging nothing for its services. Contributions should be sent to L J Wells 201 Bennett avenue or to Clifton & Fletcher 262 Bennett avenue Cripple Creek who compose the committee.

OLORADO SPRINGS MINING STOCK EXCHANGE

Springs July 16—The mar ex[illegible]nge cannot be said tinued to improve. The ruled were on the whole the day before. Indeed r and Eclipse were almost examples of advancing there seemed to be a good these shares at decidedly The general run of the exceedingly light and total absence of any outside r stocks of any class al e were a few timid buying ewhat below the market d to be filled. The decline to 61 had a dampening the little cheer which the brokers managed to ver the little improvement and there was no evidence at the close of the afternoon's trading that anyone was feeling especially bullish.

Anaconda sold at 35 in the morning, a low enough price as will be quite willingly admitted, but in the afternoon 2,000 shares were exchanged at 33. Doctor opened at 64¼ in the morning and the last sale was at 61 (sell 30). Isabella however strengthened up to 44¼ and Pointer was somewhat stronger at 8¼ (seller 30). One of the features of the call was the activity and strength of Eclipse stock which opened at 11⅞ and closed at 13¼. The property is understood to be in an improved condition although there have been no developments which would warrant the decline of the last few weeks. D[illegible] was stronger at 6, and B H Ajax was higher at 4.

EASTERN MARKETS

New York July 16—There was a show of strength in the early stock market today but it was mostly dissipated before the close. The attention to the crop news and the reports over night of rains was a strong influence in the advance of the corn carrying railroads which extended to from ½ to 2½ in the most members of the group, Atchison leading. The sharp rally in the corn market late in the late and the language of the weekly government crop report depressed the corn roads again and just before the close St Paul fell to a sharp fraction under last night. The government cotton report was considered favorable and was reflected in the comparative firmness of some of the southern lines. The United States Steel stocks were apparently pegged and their unyielding support discouraged [illegible] raiding tactics on the part of the bears, but the insiders had to buy the stock [illegible] to accept a continual stream of liquidation all day. There seemed to be influential buying also of the Pacifics, grangers and southwesterns but it consisted in the acceptance of offerings rather than of active bidding for stock and not much resistance was offered to the late reaction. The banks show no evidence of a desire to foster renewed speculation and are asking rather higher rates for time loans. Call loan rates receded but without resulting in any actual pressure of money to loan. Sterling exchange was also easier this morning although it stiffened again before the close. Favorable progress was reported in the London stock exchange settlement, the support accorded the United States Steel stocks seeming to reassure sentiment there. The discount rate at Berlin was easier and the situation there was reported to be sensibly ameliorated. New York exchange at Chicago rose again to 25 cents premium from 5 cents premium yesterday. The sub-treasury is contributing to the money market and that institution's debit at the clearing house today ran up to $2 6 0 5 due to heavy pension payments and to payment of a check for Klondike gold deposited on the Pacific coast. The relaxation thus variously indicated of requirements upon the New York money market was the important factor in the firmer and quieter stock market today. The heading liquidation of last week and yesterday morning was thus shown to be unnecessary. The [illegible] disposition however to encroach upon the money market supplies which it is believed will be certainly needed at an early period in the crop movement. Among usually inactive stocks wide advances worthy of notice were in Chicago and Eastern Illinois 6¼, Texas and Pacific land trust 5, General Electric 5 (afterwards lost), Laclede Gas 1, Des Moines and Fort Dodge 4½, Consolidated Gas 3½, and North American 3.

The railroad bond market was quiet and irregular with a narrow range. Total sales par value $1,435,000. United States 2s the old 4s and the 5s advanced ¼ and the new 4s declined ¼ per cent on the last call.

Continuous quotations on New York Stocks, Bonds, Cotton, Chicago Grain and Provisions. Wm. A. Otis & Co., 2? Giddings building.

New York Money

New York July 16—Close—Money on call easier at 3@4 per cent; last loan and ruling rate 2. Prime mercantile paper 4½@4½ per cent.

Sterling exchange easier than first with actual business in bankers' bills at $4.8?¾ for demand and at $4.84¼@4.84½ for 60 days. Posted rates $4.8?½ and $4.88. Commercial bills $4.83¾@4.84.

Bar silver 58¼. Mexican dollars 46¾.

State bonds easy, government bonds irregular, railroad bonds irregular.

The London Market

New York July 16—Commercial Advertiser's London financial cablegram: The stock market today was more cheerful and the natural reaction after the slump and demoralization of the last few days was encouraged by the Cape premier's strong speech on the war. In consols the bears scurried to cover causing a rally of ¾ to 9?¾. The foreign markets were more cheerful.

American stocks opened hard but business was confined to two or three hands. London bought slightly but most offers from New York were feverish and fluctuating. Attention was chiefly centered on Atchison, Union Pacific and Southern Pacific. United States Steel was comparatively steady.

Chicago Grain and Provisions

Chicago July 16—The crop situation caused a sharp rally in the grain market today and September wheat closed 1c, September corn 1¾@1½ and September oats ¾@¾c higher. Provisions closed 5@10c lower.

The weather remained the all potent factor in wheat today, although at the opening weak cables joined with reports of better weather in the northwest were influential in considerable liquidation of wheat. September opening ¼@⅜c to ⅜@½c lower at 66c to 66¼c. Aggressive local support and reports that New York Stock exchange traders were buying steadied the tide almost immediately. During the rest of the day reports were received showing that the situation in the spring wheat territory is practically unchanged. Some claimed considerable damage in South Dakota. The official weather forecast gave slight promise of better conditions. Commission houses sold with considerable liberality on all bulges but the market easily handled all offerings and September steadily advanced to 6?¾c. The close was firm 1c higher at 67¼@67¾c. Exporters reported 23 loads taken. Seaboard clearances in wheat and flour were equal to 940 000 bushels while primary receipts were 746 000 bushels compared with 31 000 a year ago. Local receipts were 350 cars, 2?? of contract grade. Minneapolis and Duluth reported 29? cars against 1?3 last week and 2?3 a year ago. Bradstreet's report of the world's visible showed a decrease of 4 400 000 bushels.

There was a heavy trade in corn. Scattered reports of rain, the appearance of clouds or of cooler weather resulted in a rush of sales at the start. September opening ⅜c to 1¾c lower at 4? to 4?c. Numerous other reports showing that considerable damage had been done already and climatic conditions were still against an even ordinary crop of corn and the heavy run of hogs indicating a fear among farmers that they would be unable to feed their swine caused a rally to 50¾@50⅞ and the close was strong 1¾@1½c higher at 50¾@50⅞c. Receipts were 5?8 cars.

Oats were moderately active and displayed a firmness independent of the strength developed in corn. Local shorts covered and buying for the country account continued hot weather being the chief influence. Receipts were 164 cars. September sold between 30¼c and 31¾c and closed ¾@⅞c higher at 31¾c.

Provisions were dull and heavy owing to the heavy run of hogs and a drop in prices at the yards. Fluctuations were narrow, closing prices being about as they were at the opening. September pork closed 5c lower at $14.10, September lard 5c lower at $8.?5 and September ribs 10c depressed at $?.?5.

Estimated receipts tomorrow: Wheat 500 cars, corn 190 cars, oats 50 cars, hogs 25,000 head.

The leading futures ranged as follows:

CRIPPLE CREEK MINING NEWS

Economic Mill Again Running With Full Force—Red Spruce Preparing Shipment—Ore at 1,000-foot Level in the Portland.

Special to the Gazette.

Cripple Creek July 16.—The Economic mill is running with full force again, all troubles having been satisfactorily settled by the Woods Investment Co. and a few of their employes who struck for 25 cents of 25 cents per day in their pay.

The Red Spruce company owning the Red Spruce on Gold hill will make its first shipment since the present ownership went into effect on the last of this month. The consignment will consist of two carloads amounting to about 40 tons of ore, the value of which is hard to gauge owing to the ... [illegible] have been had in four months, gold, silver, copper and lead. [illegible] will be treated for all of the metals.

The Midget company has again commenced striking in the main workings on Gold hill. The shaft is down to a depth of something over 800 feet and steady shipments are being sent out from the lower levels of the property.

Miller & Downey, operating the lease on the Jackson workings of the Gold Sovereign Co. on Bull hill, will today sent out a 20 ton shipment of fine ounce ore. The ore is being mined at a depth of 300 and 400 feet from the surface. Here extensive development work is also being carried on.

While no work is being accomplished at present on the Worcester workings of the Central Consolidated company, although the lease has been transferred to other parties, Mills & Co. working the Hopes ... [illegible] ... the Unexpected ... sent out a 20 ton shipment ... is expected to return ... ounce[s] ... to two ounces in gold to the ton. These lessees recently put down a hoist and connected up with the tunnel level in which they made their strike and are now developing the vein at a depth of about 80 feet from the surface.

Assays of nearly three ounces in gold to the ton are being obtained from the Tropical Leasing company's 400 level on the Tropical block No 1. Connections have been made between the bottom level and a winze sunk from the 400 foot depth and the ore in the bottom is showing up well. Shipments are now being sent out regularly.

The ore in the 1000 foot level or the natural depth of 1?00 feet from the surface in the Portland is showing up in greater proportions every day with an increase in average values. The permanency of the ore body at this depth is giving the Portland management, not to speak of nearly every other management in the district, a great deal of encouragement in prosecuting deep mining.

An 18 ton shipment of smelting grade ore was closed yesterday from the Santa Rita lease on Straw mountain. It is thought that the ore will run as high as $?.00 to the ton, as it is the higher grade mineral from the deepest workings, the 600 foot level. This level is showing up a wider ore body with considerable of an increase in average values. [illegible] been developed for about ?0 feet and the shoot averages from eight to 14 inches of the values indicated by the settlements.

EAST BEAVER COMPANY HAS RESUMED WORK

Work has been resumed on the property of the East Beaver company located about 15 miles east of Cripple Creek. The work is being done on company account and has been started with a force of 10 men. A foot of medium grade ore has been opened in a promising vein and it is thought that after greater depth has been gained than is now afforded by the shallow shaft the values will run pay. In order to gain this depth a tunnel is to be run into the hill for a distance of 600 feet which will cut the vein at a depth of 350 feet. The operations of this company have encouraged a considerable amount of prospecting in the neighborhood which is located some five miles down the creek from the Cheyenne mountain stage road.

HOISTING ORE FROM THE NEW DAMON STRIKE

The development work in the ore recently opened in the Brilebank shaft on the property of the Damon company on Bull hill has now progressed far enough to allow hoisting to begin and the first ore is now being brought to the surface. The work which has been done also indicates that the ore is of considerable consistency and it is expected that it will hold out well. The find it will be recalled was made at a depth of 40 feet from the surface and although that is considered rather shallow for permanent ore bodies some of the best shoots yet uncovered in the Damon have been at a depth hardly greater than that. From present appearances this shoot will be as good as any which the ground has ever shown. The group is now making a production of about 15 tons a day. Although in connection with the bear rumors about Isabella it has been stated that all the mines on Bull hill had practically no ore, the production which the Damon is making helps to refute the charge.

PROGRESS OF STRATTON'S WORK AT GREAT DEPTH

Work is progressing at a very satisfactory rate on the different properties controlled by W. S. Stratton. The shaft on the Orpha May has now reached a depth of 1300 feet and a station is being cut at that depth. This is now one of the deepest workings in this section of the camp. In the John A Logan sinking is to be soon resumed, a station having recently been cut at the 1400 foot depth and a drift started in the direction of the vein. The Orpha May property will begin shipments directly and it is expected that they will be maintained at regular intervals from now on. The American Eagles are also to be included in the list of regular shippers. In the Poverty Gulch group the Della and Abe Lincoln will for the present make up the production for this quarter of the Stratton properties.

LEASING COMPANY

Organized in Denver to Operate on the Cripple Creek Consolidated and Work Properties

The Cripple Creek Consolidated company has just sanctioned an assignment of the Finn lease on the Colorado Boss claim to the Tunnel Mining and Leasing company, a company just incorporated in Denver, and the Work company has taken a similar action in regard to the lease which the same persons owned on the Morning Glory No 4.

The new company has been incorporated by W. S. Hollister, R. I. Stauer and Milton Smith, Continental Oil people who have put a considerable amount of money into Cripple Creek. They were interested in the lease before it was assigned to the company which they have incorporated and all the interests in it excepting those which they owned have been bought out.

There has been a large amount of work accomplished in the six months during which the lease has run. Work was started from the Ophelia tunnel in a party drift along the line between the Boss and Morning Glory line and continued for some 600 or 700 feet. A considerable amount of drifting was also done in the ground of both companies in veins which were cut in the progress of running the main drift, but no permanent body of ore was encountered although several very promising showings of ore have been obtained.

It is understood that the organization of the company will enable work of a very active nature to be carried on and those interested are hopeful of opening up good ore in time. The work which has been done was carried on [illegible] drills having been employed. The lease has still 18 months to run.

MINING NOTES AROUND TOWN

The new board of directors of the Key West company met yesterday afternoon and elected the following officers to serve for the ensuing year: P. P. Davie president, J. J. Franklin vice president, J. H. House secretary and F. W. Stehr treasurer. The meeting was a short one and little discussion was indulged in regarding the future policy of the board but it is understood that active steps will be taken at once to get all the property under development and that every effort will be made to make the coming year a prosperous one.

GOOD REPORT FROM THE SHERMAN PROPERTY

P. H. Newman, superintendent of the Sherman properties near Hinsdale, was in the city yesterday with some very fine specimens of ore to show from a vein which has just been cut in the Sherman group. In running the main crosscut with the intention of opening the [illegible] vein at considerable depth a new vein was encountered which promises to be a valuable addition to the mineral resources of the mine. The ore is a gray copper, carrying good values in silver and promises to yield easily to treatment. Mr. Newman reports that the property is in a most encouraging condition and that work is progressing on a good scale. It is expected that the main vein will be encountered in a short time.

FANNY RAWLINGS ORE RUNS $400 66 NET PER TON

Returns were received yesterday at the offices of the Fanny Rawlings company in this city from a shipment of about three tons marketed from the South Winnie lease on this company's property in Leadville. The shipment was settled for at the rate of $400.66 net per ton, the distribution being 20.9 ounces in gold and ?3 ounces silver. The ore is coming from the shoot which has been opened for some time at the 200 foot level. An officer of the Fanny Rawlings company is authority for the statement that work will be started in the main shaft which is not caved with the expectation of reaching the contact after a certain amount of sinking has been done. The company has been receiving liberal royalties from the lessees.

ANOTHER SHIPMENT FROM THE DEADWOOD PROPERTY.

A shipment of 20 tons of ore has just been closed by Perkins and Buchner leasing on the Deadwood No 2, and is expected to run better than six ounces in gold to the ton. The ore is all coming from the shoot which has been opened in the 300 foot level of the mine and from which ore of excellent values has been shipped. The car sent out previous to this consignment was settled for at the rate of $134.60 in gold to the ton, an improvement over the one sent out before that which averaged $1?.50. The shoot at this level has

CROSBY-EHRICH SYNDICATE'S MARKET LETTER

Colorado Springs, July 13, 1901.

Although in practically a stationary condition there have been, nevertheless, a few features to the mining stock market for the past week. Taking the market as a whole prices have remained almost stationary though there have been a few fractional advances and an equal number of declines. The meritorious stocks such as Elkton, Portland and Butterfly Terrible and others of this class have remained steady at the prevailing figures of a couple of weeks ago. These companies are open and fair in all of their statements to the public and there is apparently little if any desire upon the part of investors to separate from such good interest bearing securities.

What is up in Isabella is a question asked by all and one which if answered correctly would probably be worth many thousands of dollars to the persons possessing the information. There is certainly not a more erratic security throughout the entire list. This is not the first time Isabella has slumped with startling rapidity, such occurrences have become quite common with this stock, and it was for this reason alone that we have continually and unceasingly cautioned clients and prospective investors to leave it entirely alone. No one but the management knows what the physical condition of the property is today and they are certainly not allowing their knowledge to become public property. It is quite within the bounds of reason to assume that the recent action of the directors in passing the usual quarterly dividend had a certain depreciating effect upon the price of the stock but it is not reasonable to assert that this is responsible for the 20 cent decline that has taken place. It is highly probable that the reason for this decline will never be known. The history of the stock since the formation of the company has been a series of surprises. We should not be surprised to see the stock drop to 25 cents a share and perhaps would be even less surprised should it suddenly react and go to above one dollar again.

BONBRIGHT & CO.'S MARKET LETTER

Colorado Springs [illegible]

The midsummer dullness ... evitable in the market ... distinctly in evidence ... week but while the ... lethargic and the public ... different, the mines still golden streams while the dividends are increasing in amount, those for the month of July promising to be the largest of the year. The annual meeting of the stockholders of the Elkton company was one of the important events of the past week at which reports were presented which stockholders found very pleasant reading. Notwithstanding the fact that the Elkton's water situation was probably the most serious ever encountered in Cripple Creek, yet the management mastered the difficulty completely. The mine shipped during the fiscal year 1?,?53 tons of ore of a gross value of $1,3?1,046. There was a net profit to the company of over $?00,000—and $100,000 was added to the treasury fund during the same period.

Few mines in Colorado have made a better showing than the Elkton since October 1897 but the most gratifying of all is the steady increase in values year by year. For the year ending May 31, 1899 the gross value per ton was $20.60 which during the following year was increased to $44.?9 and for the year ending May 31, 1901 to $60.33. During the ?? years of the company's existence the Elkton has produced over $4,000,000 and paid out $1,600,000 in dividends to its stockholders—a remarkable exhibit indeed, and the future of the mine was never brighter than at the present moment.

Rumors concerning the sale of the Portland mine will not down. The officers of the Portland company have denied these rumors repeatedly but each week a new story is given circulation. The latest rumor is to the effect that a control has been sold in London for $3.00 per share or on a basis of $9,000,000 for the mine. This has been emphatically denied and it is the consensus of opinion among those in a position to judge the merits of the Portland that a control could not be purchased for $5.00 per share. The recent discovery at a depth of 1,?00 feet has turned out better than was anticipated in the beginning. The shoot has been proved at a distance of over 100 feet showing a solid body of ore five feet across and carrying a streak 18 inches in width which returns values of over 60 ounces [illegible] in gold, to the ton.

What the Week Has in Store . . . .

THE QUARTO CENTENNIAL

All Colorado is Now Aroused

DETAILS OF THE PROGRAM

Three Days of Jubilee and What the People Will Do on Each---Bringing Order Out of Chaos.

THURSDAY, AUGUST 1—PIONEER DAY.

10 a. m.—Meeting of Colorado Pioneers in the opera house. Addresses by early settlers.

2:30 p. m.—Women's Congress meets in the opera house. Prominent women of the day [illegible] of Colorado during the past 25 years.

8 p. m.—Addresses in the opera house by former Governor Adams, Congressman Belford and others.

The Elks Street Fair, carnival of sports, band concerts, excursions and special exhibitions at the ostrich farm will begin on this date.

FRIDAY, AUGUST 2—STATE DAY.

8 a. m.—Vice President Roosevelt will arrive. He will be welcomed by Governor Orman and staff, veterans, school children and citizens.

10 a. m.—Roosevelt's Address in North park on "The Growth of Colorado During the Last Quarter of a Century."

2:30 p. m.—Grand Historical Parade. The early epochs of Colorado history will be illustrated by 50 floats.

8 p. m.—Banquet to Editors at Antlers. Wolf Londoner of Denver will preside and speeches will be made by Colonel Roosevelt and prominent newspaper men from all parts of the country. William Jennings Bryan may be present.

8 to 10 p. m.—Grand Street Illumination.

SATURDAY, AUGUST 3—ROUGH RIDER AND INDIAN DAY.

9 a. m.—Contests and Exhibitions of skill in front of grand stand by Roosevelt's Rough Riders and Indians. Cowboy soldiers will hold their annual reunion. Over 500 Indians will be present.

2 p. m.—Exhibitions in front of grand stand.

8 p. m.—*Magnificent Display of Fireworks.* Street Illumination.

OTHER ATTRACTIONS.

Every day there will be band concerts morning, afternoon and evening. The Elks street fair will be open each day and a number of excursions have been arranged over the Short Line and other railroads. There will be professional baseball games every day and cricket, golf, tennis and polo tournaments. A state gun shoot will also be held.

The official program for the great Quarto-centennial celebration was announced as above yesterday by the executive committee which has been arranging the plans. Practically the only changes to be made to this program will be the addition of new features.

The pioneers will hold their exercises on the morning of the first day and in the afternoon the women's congress will meet. There will be more going on this day than a glance at the plans would indicate as all the entertainments provided for the 4,000 visitors who are expected will be in full swing.

Aug. 2 will be State day and Gov. Orman and his staff will be here to welcome with the citizens of Colorado Springs the coming of Vice President Roosevelt who will deliver an address on the growth of Colorado and the west in the past quarter century. In the afternoon there will be a splendid parade along historical lines illustrating with floats and by costumed characters the earliest epoch of Colorado's history, beginning with the Cliff Dwellers. A handsome float representing the Cliff palace with the people of that prehistoric time at their customary vocations will be designed by Mrs. Gilbert McClurg, who has made a life study and is an authority on this subject.

A float representing a Moqui pueblo with the people of that period who were presumably descendants of the Cliff Dwellers will be designed by Mr. Lotave, the well known artist.

There will be other handsome floats built by the [illegible] representing Spanish life of the southwest, the coming of the early discoverers to the Pike's Peak region—Fremont, Pike, Rixton, Long. Then there will be a representation of Indian attacks upon early pioneers and upon the first settlers in their log houses.

The pony express, the overland stage, hunters and trappers, early prospectors and the advent of the locomotive will be depicted and there will be an allegorical representation of the material industries of the state and of the present development of societies in Colorado.

In the evening the association has arranged to give the most magnificent banquet to the editors of the state that has ever been prepared in their honor or in the annals of the west. The ball room of the Antlers hotel has been engaged as the scene of the banquet, which will be presided over by Vice President Roosevelt, who will be one of the principal speakers, and Wolf Londoner of Denver will act as toastmaster on this occasion. The association has invited one representative from every journal in the state to be present as guests and expects that the most notable editors of the country will be present to make short addresses. Invitations have also been sent to men like Henry Watterson of Louisville, Editor Rosewater of Omaha, H. H. Kohlsaat of Chicago, William R. Hearst of New York and last but not least William J. Bryan of the Commoner to be present and speak on the development of the press in the past [illegible] years.

August 3 will be Rough Riders day, when there will be held here the national annual reunion of Roosevelt's Rough Riders and it will also be known as Indian day. Representatives of several of the nomadic Indian tribes and also a large number of the Pueblo Indians, specially from Santa Clara, will be here.

In the evening a pyrotechnic display of set pieces illustrating Colorado's scenic wonders and important historical events has been arranged.

Governor to Attend the Flower Show

The preparations for the flower show that is to be given next month by the El Paso County Horticultural society are going along rapidly and it is an assured fact that the show is going to be the best that this enterprising association has ever held.

The most interesting development in the matter during the last few days has been the correspondence with Governor Orman regarding his attendance at the show. Mrs. Orman is a great lover of flowers and has for a long time been interested in whatever has been done in the state for the advancement of the cultivation of all kinds of flowers. An invitation has been sent to Mrs. Orman and through her to the governor requesting their presence in Colorado Springs at the time of the flower show and they have replied that they will attend if it is possible to do so. If Governor Orman does attend it will be upon the opening day and some informal ceremonies will be arranged for the event.

Parents of children who are contemplating entering exhibits in the competition are requested to see that the children get their entry blanks early and after filling them out return them to the secretary at 28½ North Tejon street. This must be done before August 12.

LORENZO, THE LION TAMER.

ALL THE TOWNS ARE COMING

Reports From All the State Tell of Tremendous Crowds Looking to Quarto-Centennial.

From every city and town in the state assurances have been received that the different localities will be represented in the celebration. Some cities will have from three to five floats in the historical parade on the second day. All the railroad companies will send floats and most of them will have bands in the pageant.

Tomorrow night the councils of Colorado City and Manitou will take action concerning representation. Word was received yesterday from Charles Sprague, who has been visiting Canon City and Florence, that both those places will send floats and probably bands for the parade. Mr. Sprague is now in Leadville urging the citizens of that city to be represented.

Secretary Wilson of the Pueblo State Fair association notified the executive committee yesterday that Pueblo will have three floats in the historical parade. The Festival of Mountain and Plain association of Denver will also send floats. Glenwood Springs, *Grand Junction*, Durango and Ouray will all be represented. Mayor Franklin of Victor has sent word that Victor will have a float representing Battle mountain and the great output of the Victor mines in the procession. The Portland band will be sent down by Victor. Cripple Creek will also have several floats and a band in the parade. Thousands of visitors will be here from the district.

The secret societies have been preparing for the part they are to take in the historical parade. The Woodmen of the World have already announced that they will have 500 men in the parade.

BIG PARADE OF FLOWERS

Prominent Citizens Constitute a Committee to Supervise a Flower Carnival for Jubilee.

In addition to the Indians, the Rough Riders and the historic floats in the parade to be held on the afternoon of August 2, there will be the further attraction of a flower parade.

In order to show vividly the striking difference between the old times—which will be pictured in the floats—when the city was in its infancy and the modern development of what was once the wild and woolly west, it has been suggested that the citizens decorate their carriages with flowers, natural or artificial, and participate in the parade which will be reviewed by Vice President Roosevelt and many national and state officials, including Governor Orman and his staff.

In order to see to this feature of the festivities a committee consisting of Messrs. Dodge, Hunt and Carpenter has been appointed, which has been extremely successful in the short time it has been at work in securing entries.

Already the following have promised to enter decorated traps:

Mr. J. C. Shields,
Mr. D. V. Donaldson,
Mr. H. C. Allen,
Mr. L. R. Ehrich,
Mr. R. P. Bartlett,
Mr. C. P. Dodge,
Mr. J. M. F. Robinson,
Mr. I. Carpenter,
Miss Anna Curr,
Miss Carolyn Hunt.

It has unfortunately been impossible for the committee personally to see many who would undoubtedly be willing to combine patriotism with pleasure and make this a memorable afternoon by swelling the number of those entering decorated traps.

It is therefore the earnest wish of the committee that those who care to enter the flower parade should communicate as soon as possible with C. P. Dodge of the firm of Adams, Dodge & Co., De Graff building.

It is to be hoped that the response to this appeal will be large, for the citizens should do everything to make this important parade a grand success.

THE ZOOLOGICAL FEATURES OF THE ELKS' STREET FAIR . . . . . .

One of the great features of the Great Street fair that is to be given by the Elks of Colorado Springs in connection with the Quarto-centennial celebration is the animal show. It has been termed the Zoo and Hagenbeck's and various other things, but the street fair animal exhibition is to be known only as such. It will speak for itself when it arrives in the city.

The animal feature of the fair has been mentioned in the Gazette before now and the people of the city are talking about what the show is going to be. Some of them are inclined to think that it is a dummy animal show after the manner of the animal features of the famous society circus that was held in Colorado Springs three years ago. Nothing however could be farther from the truth.

The animals of the Elks Great Street Fair Midway will be real live ferocious beasts of the forest and the jungle, brought from their native haunts at tremendous expense and risk to the lives of their keepers. There are in the collection six cages made strong and secure just the same as the wild animal cages of any animal exhibition. Three of these cages are used to confine nine large lions. These lions are from Africa and have been secured by the management of the street fair at great expense. There is another cage of bears, great fierce beasts who would make quick havoc in the streets of Cairo and everywhere else in the Midway if they were to break from the cage. In addition to these wild beasts the collection of animals includes a tame performing bear named Fatima. This animal affords great sport for the children. A fifth cage is filled with monkeys and it is said to be the liveliest gang of monkeys that ever was brought into the western country.

A large number of ponies add to the amusement for the people on the Midway, and those who are too much impressed with the oriental character of the surroundings to ride common ponies can while away the hours of a half day riding a block or two on the back of a camel. There will be several camels in the Midway and the novel experience of a ride after the manner of the passengers in the desert caravan may be had by all.

The animal cages are very artistically gotten up, as can be seen from the accompanying illustrations. They will be open throughout the continuance of the show and persons going in at any hour can be sure of seeing the show, heavy-moving bears as they hunt day in and day out for a means of escape from captivity, can hear the roaring lions and see the jungle chattering monkeys at play unceasingly.

The wild animal show is in charge of two trainers. Joe Farrari, one of the most capable wild animal tamers in the world, who has been with this show for a long time and was formerly with several of the best known animal shows in the world, devotes his full time to caring for the bears and the monkeys and the rest of the collection except the lions. Lorenzo, the famous lion tamer from Africa, is the other keeper. He is captor as well as trainer and tamer of wild beasts, his experiences in the forests and jungles of the torrid countries where he has secured his prizes being experiences that would furnish material for a whole library of adventure.

The show will come here in time to begin on the afternoon of July 29 and there is no doubt but the animals will prove one of the star attractions of the Quarto-centennial.

A PERILOUS ESCAPE

The Diary of a French Royalist Imprisoned in the Famous Chateau de Joux

The narrative of the escape of four royalist prisoners from the Chateau de Joux, near Neufchatel, written by Captain William Girod, one of the participants in the events which it describes, is printed in the July Century by permission of his son, also named William Girod, who died in Brooklyn, New York, in 18[illegible] at the age of [illegible]. The text followed is a copy of the original manuscript written by Captain Girod for his son, and no change has been made in the manuscript except by way of omission of less interesting details and in restoring the narrative to the first person, it having been changed to the third at the time that the present owner made the copy from the original, which has since been destroyed. The members of the family have no knowledge of any other narrative of these events.

The Chateau de Joux has had many noted prisoners within its walls. In 17[illegible] Mirabeau, while imprisoned there under a lettre de cachet, was allowed to visit Pontarlier, where he met Mme. Sophie de Monnier, to whom he wrote the "Letters to Sophie," which were published in 1793. It was also the place of the captivity and death of the hero of the negro revolution in Santo Domingo, Toussaint Louverture.

Captain Girod's supposed offense was complicity in the attempt to blow up the first consul with an infernal machine in December, 1800. He and his fellow prisoners first made a hole through the ten foot wall of their [illegible]. The narrative then continues:

The next operation was to manufacture a rope. We had eight strong linen sheets nine feet long, each of which we split into eight strips, which were first twisted separately and then two together. In addition to this we cut up a very large counterpane, a number of shirts, table cloths, towels—in short everything that could be used. When finished our rope was found to be twelve times the length of our casement.

This was the most anxious period since we began the work of escape. It was necessary to hide everything. The sheets might have been missed; they might have come to change them. However, as we always made our own beds, we took care to cover them completely with the large rugs with which each of us was furnished, and thus everything passed without a shadow of suspicion.

At length arrived the day of final deliverance—January 2, [illegible]. We took an affectionate leave of our neighbor, M. De Rivière, who most cordially congratulated us and offered his sincerest wish for the final success of our arduous attempt. He was to dine with the commandant, and he promised to ply him so freely with wine—to which he was known to be very partial—as to render him by 7 o'clock, the hour fixed for our departure, altogether incapable of interfering with our design. At the appointed time we, taking a silent farewell of our prison room, began the work of actual deliverance. Having made the external opening large enough for a man to creep easily through, we placed the iron bar across the hole. Round this the rope was drawn without being tied, so that we were obliged to slide down the double rope to prevent its slipping. We threw our greatcoats and some small bundles containing such clothes as we could venture to take along through the hole before us. I had a small terrier which had been my companion in prison as well at the Temple as at Joux for about two years. I could not make up my mind to have it killed, and had it been left behind alone its cries in all probability would have led to a premature discovery of our escape. I therefore made a bag for it, which I hung about my neck, and with it I descended the rope. The precise height of the first descent could not be accurately ascertained, but it was supposed to be from eighty to a hundred feet. However, we all got safely down, part of the end of the rope having broken with M. d'Hauteroche, who was a stout, heavy man, but he was fortunately so near the bottom that he received no injury.

The rope was then disengaged from the iron bar by pulling one end of it, and I was despatched to find the tree on the edge of the rock. It was easily found, but before MM. de Frotté and d'Hauteroche had got down, so thick a fog came on that I could neither see the fort nor could my companions see me. The moon came to our assistance, and the others reached the tree, to which we tied one end of the rope, slipping down one after the other, sometimes on the shelving sides of the rock covered with snow, sometimes without any other support down the occasional but short precipices, until we got a good footing on a large projecting point. Here we stopped, and pulling forcibly, two together, we succeeded in breaking the rope pretty high up. We again made it fast, descending in the same manner, again broke it and tied it a second and a third time, but it was eventually too short to enable us to get quite down.

We now found ourselves surrounded by high mountains, without the appearance of a track in the snow, and were quite at a loss which way to proceed in order to reach the highroad. Luckily some packhorses with bells passed by and indicated the beaten road, which was considerably above us. We reached it with the greatest difficulty, the snow being in many places more than three feet deep. Notwithstanding the coldness of the weather, we perspired freely from the exertion necessary to extricate ourselves from our difficult position. Having gained the road, we were at a loss to know which way to proceed. We were provided with a small compass, some tinder and matches and a steel flint, but we had been so long in the snow that our tinder was spoiled, and it was so dark that we could not see which way to steer. We however discovered a chapel by the roadside which we had not noticed on our way from Pontarlier, and we therefore concluded that to be the road, and so it turned out.

ONE OF THE ANIMAL WAGONS
(Showing exterior decorations.)

SURVIVORS OF THE FIRST CONVENTION

Living Coloradoans Who Gave the State Its Constitution Will Probably Hold Reunion at Quarto-Centennial.

It now looks as if there will be a meeting of the surviving members of the First Colorado constitutional convention at Colorado Springs in connection with the Quarto-centennial. The meeting has not been announced yet, but Mr. Charles Sprague, who is at Canon City in the interest of the Centennial, has had a long conference with former Senator Felton and urged that such a meeting should be held.

Senator Felton was a member of the first constitutional convention and out of the full number of about [illegible] only 13 are known to be living. All of these but one or two are living in the state. They have never had a reunion, and it is suggested that this would be a very fitting time for them to get together, being the first celebration of the state's admission into the union for many years.

Mr. Sprague is in Canon City and has spent his time energetically in visiting the officials of the city and county and prominent business men of the place in the interest of the Quarto-centennial celebration. His especial mission is to work up interest in the affair in Fremont county and secure a representation in the way of one or more floats for the historical and industrial parade. So far he has met with the greatest encouragement.

Thursday Mr. Sprague spent in Florence. The Business Men's association there immediately called a meeting and empowered a committee to proceed to collect subscriptions and to carry out the project. It is purposed to have an exhibit from Canon City costing not less than $[illegible].

After meeting with the chairman of the board of county commissioners of Fremont county and with Mayor Peabody of Canon City, it was said that both the county and the city council would make appropriations and work in harmony with Florence.

It now looks as if Fremont county would have one of the best displays of all of the outside counties in the grand parade.

A CONTEST IN DRILLING ROCK

Another Interesting Feature Is Added to the Quarto-Centennial Program---Committees Working It Up.

The throngs that will be visitors in Colorado Springs during the Quarto-centennial jubilee will witness one of the most interesting contests that has ever taken place in the city. It will be the rock drilling contest, and will be one of the most vigorously contested that has ever been gotten up in the state.

On account of the fact that this celebration is to be participated in by Vice President Roosevelt and other distinguished statesmen and citizens from outside Colorado, the rock drilling contest will be a particularly interesting one. These contests have been held in the state frequently, but never has there been one at a celebration that drew very extensively from sections of the country where rock drilling is little thought of. It is one of the factors in the mining business, this boring of holes in solid granite for the purpose of searching out the earth's treasure, and visitors from everywhere cannot fail to be interested in the contest.

All the mining camps of Colorado will be represented in this contest and it is expected that there will be a greater number of entries than ever took part in a similar contest before.

The preparations for this event, one of the most interesting in all our Quarto-centennial plans, is in the hands of a committee consisting of Claude Sachs, J. A. Barclay and A. [illegible] Bras.

WOMEN STUDENTS WHO WORK

How Poor Undergraduates Manage to Make Ends Meet at American Colleges

Miss Alice Fallows, who wrote in the June Century of how men work their way through college, is the author of the leading article in the July number, which is entitled "Working One's Way Through Women's Colleges," with pictures by Charlotte Harding.

Just within the entrance of the gymnasium at Smith college is a small square room which looks like a booth at a church fair. The bulletin boards on its walls are covered with blue prints, copies of Gibson pictures, painted frames, college flags, bright colored class banners, pincushions, pillow covers and a score of other fancy articles which seem the pastime of an idle hour. In reality each one represents the serious investment of a girl who is working her way. The Smith college calendar hanging in a corner took one girl half through the term. The picture frame opposite paid the incidental expenses of another for a year, while the jolly pair of football players constructed out of tissue paper and pecans sitting on the window sill made the temporary fortune of their inventor. A day after she had slipped in and put them there they became the college fad, and for weeks she could not turn them out fast enough to fill her orders. Then suddenly their popularity waned, no one wanted them, and now, faded and covered with dust, the two favorites of a past hour sit neglected in their corner, a pathetic warning of the inconsistency of college demand.

Like Smith students, college girls everywhere try these picturesque methods of making money. The pretty trifles which they sell might seem to a poet the spontaneous expression of the feminine instinct for grace and beauty, but they illustrate rather a poverty of financial opportunities. A college man in his effort to support himself is limited only by his capacity. He can break stones in the road or publish a paper as his talent provides. He is free to enter any trade or business in the town, or invent a new one if he pleases. He may wander where he will along economic highways and byways. No one thinks of putting an obstacle in his way.

But when a girl, out of the fullness of her desire, determines to work her way through college, she must first rid herself of the notion that she can copy her college brother. Otherwise she will meet with disappointment, for long ago Mrs. Grundy set a distinction between labor fitting for men and for women, and our colleges for girls still respect it. During undergraduate days at least they believe in an emphasis of the womanly. The self supporting girl therefore finds before many an industry open to her college brother a sign on which custom or the college president has written the uncompromising words "No Admittance." She can neither weed lawns nor dig gardens, clean furnaces nor shovel snow. The girl who should turn a bicycle shop or who became a component part of a baker's or butcher's or hotel keeper's staff in her college town would be a focus for the puzzled attention of the whole faculty, while a student dairymaid, fruiterer or butter merchant within the confines of the college would raise a storm of protest from Maine to California. Yet college men in similar positions meet only praise and commendation.

Doubtless some of the occupations in the diminished list official by college trivial enough to the dent merchant who sells 1,000 quarts and butter pounds. Neverthe invests as much en and originality in he lege man in his. If money as he her eff doubled. Few g stances have the phys necessary to meet the self support. They m self help. But the woman's college is Though restrictions student who works ships and loans as far the compens exhausted a watchfulness wh lot of the college man.

CONGRESS OF THE WOM

Arrangements Practically Co for This Prominent Feature the Big Celebration.

The Congress of Women which is to be held in this city on August 1, the first day of the great Quarto-centennial celebration, is creating great interest throughout the state.

Mrs. C. A. Eldredge, chairman of the committee appointed to make arrangements for it, has journeyed many miles in order to obtain interviews with the women selected to take part upon the program. Almost without exception those desired have readily accepted, for it is esteemed an honor to be invited.

The speeches are limited to five minutes and there will be such an infinite variety of subjects that interest will be constantly stimulated. It has been the thought of the committee to have touched upon all topics of vital importance to women which have been successfully dealt with by women and for women during Colorado's 25 years of statehood.

The meeting is to be held in the Opera house at 2:30 p. m.

The following is the program:

Music.

The Lord's Prayer, led by Mrs. James B. Gregg, Colorado Springs.

Address of Welcome, Mrs. Francis W. Goddard, Colorado Springs.

Response, Mrs. Mahlon D. Thatcher, Pueblo.

Music.

Pioneer Days, Mrs. William A. Byers, Denver.

Women of the G. A. R., Mrs. Mary I. Carr, Longmont, member National Board W. R. C.

Colorado's Work for Temperance, Mrs. Antoinette A. Hawley, Denver, president Colorado W. C. T. U.

Equal Suffrage, Mrs. W. T. Cornwall, Denver, president Colorado Equal Suffrage association.

HOW LONG IS YOUR LEASE OF LIFE?

FREE INSURANCE!

EVERY READER OF THE GAZETTE MAY HAVE A

$1,000 INSURANCE POLICY WITHOUT COST

No man is too poor to leave an estate if he carries insurance. Under this plan a policy costs you nothing, so every newspaper reader may leave a legacy of $1000 to his family. Take quick advantage of this proposition, it will ease your mind from the worry of your family's future.

Death Comes at Unexpected Moments
Fatal Accidents Happen Every Day
...Prepare For The Worst...

Make provision for the family if death should claim you unexpectedly. The necessity for it may not come for years, we all hope it won't but if it does, be prepared. If it does not your money's not wasted, the policy costs you nothing. Sudden death comes to many. It may be your turn next, who knows?

Read About the POLICY You May Get FREE

Surplus and Reserves for the Protection of Policy Holders, July 1, 1900, $2,216,340.09.

MARYLAND CASUALTY CO.'S "Puritan" Accident Policy

Principal Sum, $1,000. Weekly Indemnity, $5.00.

$1,000 DEATH INDEMNITY

For loss of life occurring within ten days from date of the event causing the fatal injury, the sum of One Thousand Dollars ($1,000), provided such injury shall have been sustained by any of the following modes, namely:

Travel and Elevator

By collision or other accident causing material damage to a passenger elevator, a surface or elevated railroad or street car, steamboat, or other public conveyance provided by a common carrier for passenger service only, within which the Assured may be riding at the time of such accident in a place regularly provided for the transportation of passengers; or,

Burning Buildings

By the burning of a dwelling, hotel, theater, store or barn in which the Assured may be burned by fire or suffocated by smoke, but this shall not apply to or cover the Assured in the performance of duty as a paid or volunteer fireman; or

By Sunstroke or by Freezing or Anaesthetics

As the result of any anesthetic when administered by a duly qualified regular physician for the purpose of performing a surgical operation except that if the Assured be a female, this clause shall not apply to any operation during confinement or childbirth; or

Boiler Explosions

By the explosion of a stationary, locomotive, marine or portable boiler, when such explosion causes the destruction of such boiler; or

Runaways

By the running away of the horse or horses attached to any vehicle driven by the Assured at the time of such runaway; or

Burglary

By violence at the hands of any burglar when robbing or attempting to rob, by forcible entry, the dwelling of the Assured.

$5.00 WEEKLY BENEFITS

The sum of Five Dollars ($5.00) per week for a period not to exceed five consecutive weeks, if the Assured shall be immediately, continuously and wholly disabled and prevented from performing each and every duty pertaining to any and every business or employment, by external injuries resulting from the following causes, namely:

Travel and Elevator

By a collision or other accident causing material damage to a passenger elevator, a surface or elevated railroad or street car, steamboat, or other public conveyance provided by a common carrier for passenger service only, within which the assured may be riding at the time of such accident in a place regularly provided for the transportation of passengers; or

Bicycles

By the accidental collision of a bicycle, ridden by the Assured with any vehicle other than a bicycle; or

Runover

If the Assured shall be accidentally run over by a cable, electric or steam railroad or street car, or locomotive, providing he is not boarding or alighting from same while it is in motion, nor attempting to do so.

This Free Policy Gives You $1,000 In Case of Death Within the Year by Accident

This Free Policy Gives You $5 a Week while temporarily injured by accident, for a term not exceeding five consecutive weeks.

This Free Policy Is in a Strong, substantial company with surplus and reserves of $2,216,340.09.

How to Get a $1,000 Insurance Policy Free

You take the Gazette now and pay sixty cents a month for it. In a year you pay $7.20 for The Gazette or some other paper. To get this policy you have simply to pay your subscription to the Gazette in advance instead of month by month, and your Gazette costs twenty cents less when paying yearly than when paying monthly. The Gazette pays the premium on your insurance. You pay for The Gazette for six months or one year and receive from The Maryland Casualty Company a $1,000 policy with a receipt for the year's premiums, that's all, except that you must be over 16 and under 65.

APPLICATION BLANK, FILL OUT AND SIGN.

Subscribers must be over 16 and under 65 years of age to avail themselves of this offer. Fill out this blank, write name and address plainly, and the policy will be delivered within a few days. Applicants must remit $3.75 for six months subscription and $7.00 for one year's subscription with this application, for which we will deliver The Daily and Sunday Gazette from the date of signing the application.

This policy does not insure any person who is either partially or wholly blind, deaf, crippled, paralyzed, insane, or subject to epilepsy, fits, sleep walking or vertigo.

(THE APPLICANT MUST SIGN THIS APPLICATION.)

This policy does not cover injuries, whether fatal or non-fatal, sustained by any railroad employe (other than executive officers and office force) while on duty, nor injuries, whether fatal or non-fatal, caused or contributed to by disease, voluntary exposure to unnecessary danger, or violation of law on the part of the Assured; nor injuries, whether fatal or non-fatal, sustained by professional bicycle riders, or by any bicycle rider while engaged in racing, or by any bicycle rider while engaged in police patrol or messenger service; nor injuries received by the Assured while intoxicated or under the influence of any drug, except as provided under the head of Anaesthetics; nor disappearance.

Any Subscriber to the Gazette, New or Old may take advantage of this proposition. Just pay $7.00 for the Gazette a year in advance or $3.75 for six months in advance, and you get both the paper and the Insurance Policy. If you don't already take the Gazette regularly begin it now. It's cheaper to take it by carrier than to buy it on the street, and you're sure of having it every day. There is no better newspaper in all of Colorado than the Gazette. No other Colorado paper is so widely quoted as the Gazette. No Colorado paper gives as much news as the Gazette. You may not agree with the Gazette politically, but you'll like and respect the fairness and strength of its policy. You'll appreciate the reliability of its news, and the absolute impartiality with which it is handled. You'll learn more of the resources of Colorado, and the opportunities of Colorado Springs through the Gazette than through any other Colorado paper.

THE GAZETTE STANDS FOR The substantial promotion of Colorado's interests; the growth and upbuilding of Colorado Springs; honesty, economy and equality in our governmental institutions; reliability, fair play and purity in its news. The Gazette is more widely read than any other Colorado Springs paper. It is adding readers and admirers every day. Having for its aim the highest possible standard of intellectual, moral and news-worth it day by day grows constantly better and greater. It costs the same as inferior newspapers and gives you

D. V. DONALDSON ELECTED PRESIDENT AT A SALARY OF $3,000 PER YEAR

Mr. Bolles Declined to Allow His Name to Go Before the Exchange for Re-election---The Committee Adopts a Resolution Regretting His Action---Mr. Donaldson Will Take Charge at Once.

At a meeting of the committee of the Colorado Springs Mining Stock association held yesterday afternoon D V Donaldson was unanimously elected to the office of president at a salary of $3000 a year The meeting was an enthusiastic one and it is confidently predicted that a prosperous year is ahead of the association

Previous to the meeting Mr R J Bolles, the retiring president had had a conference with Vice President J A Hayes at which he was firm in his stand not to allow his name to come before the committee for re-election and accordingly a communication to that effect was presented to the meeting It was learned with considerable disappointment by all the member of the governing committee even if they favored another candidate that Mr Bolles would not consider serving another term and the following resolution was unanimously adopted with a request that the secretary mail a copy to Mr Bolles

Resolved That we extend to R J Bolles the retiring president our warmest thanks for his faithful intelligent able and conscientious services to this exchange from the time of its organization and regret that he cannot see his way clear to allow his name to come before the exchange for re-election

Mr Donaldson, in view of the fact that the office was tendered him unanimously, the members of the committee feeling that there was no other available person so well qualified for the position did not see how he could decline it and his informal acceptance has been presented He will take charge this morning or as soon as he can conclude some of his private business which is pressing, as Secretary Kinney leaves today for a much needed vacation

A report was made to the committee by W A Otis and J D Ford the two gentlemen who had been appointed to conduct the regular semi annual auditing of the books of the exchange and also by Expert Accountant H H Mitchell who had made a most minute examination and reported everything to be perfectly correct The reports were adopted by the meeting

No other important business was transacted excepting the appropriation to assist the drilling contest which is reported elsewhere on this page and which is to be subject to a vote of the members today various other appropriations were requested but no action was taken

ACACIA RECEIVED $2,300 IN ROYALTIES LAST WEEK

Good Ore Is Coming From the Old Wrockloff Shoot, and a New Ore Body Has Been Opened in the Clark Lease.

The several leases on the Burns claim of the Acacia company are making a very satisfactory showing and the company is receiving generous royalties every week Returns have just been been received from one car of ore recently sent out from the Goddard lease formerly operated by Mr Wrockloff which was settled for at the rate of $130 in gold to the ton The royalty paid to the company on the one car was $700 Thirty tons of ore is being shipped this week which is expected to run between five and seven ounces in gold to the ton This ore is coming from the old Wrockloff shoot in the upper workings In upraising a considerable amount of the ore has been exposed which had been overlooked by the former lessee The ore on the bottom level however, has not been located

Settlements just received on two cars marketed from the Falvey lease show values of $105 in gold to the ton and the royalties derived from the two cars amounted to a little more than $1000 From the Hines lease a considerable amount of ore was marketed last week the royalties on which amounted to $500 The ore from these leases is running between $40 and $[illegible] Altogether the company received $2300 in royalties last week all from ore which was marketed during July

From the old workings the lessees are sending out 20 tons of five ounce ore today and two cars of low grade which will average $30 in gold to the ton

A very good body of ore has just been opened in the Clark lease which is one of those in charge of Mr Hines At a depth of 500 feet from the surface a shoot has been opened near the Pharmacist ground which will average two ounces in gold to the ton This is the most encouraging development which has taken place on the property for some time and the lessees are feeling very good over it

From the Burns shaft Carr and associates are drifting into the south end of the claim at a depth of 350 feet from the surface and have now accomplished about [illegible] feet of work.

The Burns claim is being actively developed with better results than have been obtained for several months The showing of ore in several of the leases is exceedingly encouraging and the royalties which the company is receiving is testimony of the value of several of the shoots

COLUMBIA SHIPPING HEAVILY

Sixty Tons of Ore a Week Is Now Being Produced, and This Will Soon Be Increased to 100---Showing Continues to Be Good.

The surface improvements on the Cripple Creek Columbia property have now been practically completed and it will be possible to materially increase the output for the property very shortly. The enlarged ore bins have been in use for some time and the property is now maintaining an output of 60 tons a week which is by many tons the largest output which the Columbia has ever made The ore is practically all coming from the new level run at a depth of 400 feet from the surface Connection was made with the winze sunk from the 340 foot level some days ago, and now the lessees are taking out the ore from each side of the winze in the vein which shows up entirely as well as it did with less depth The ore is running about $30 in gold to the ton, none of it having been settled for at any less figure There is not being any attempt made to save a higher grade all of the ore being put over the screens

The property is under lease to the Solitaire Gold Mining company which will hold it for about eight months longer In that time the lessees hope to get out a very good amount of the ore For almost two years they had developed the ground at different depths with little more than fitful occurrences of ore to encourage them It is their intention to sink the shaft to the 4[illegible] foot point just as soon as the work of the present depth is well under way

The meeting of the El Paso company which will probably decide to buy the Columbia claim for 525,000 shares of El Paso stock will be held July 30 and until they do no new arrangements will be made to develop the claim through the El Paso shaft but the development of the property by the El Paso company after the Solitaire lease is expired will be very thorough and energetic

BONNIE NELL IS SAVING ORE

The Shaft Is Now 400 Feet Deep Where Good Values Are Again Encountered---A Trial Shipment Goes Out the First of the Week.

The shaft on the Bonnie Nell property on Raven hill has now been extended to the 400 foot point at which depth the vein has again appeared in the shaft showing very encouraging values Work is now in progress and nearing completion of timbering up the shaft to the present depth and afterwards a sump is to be sunk and a station cut out preliminary to doing quite extensive development work at this depth

In the work of sinking the shaft some ore has been saved and this is to be shipped the first of the week A platform has just been constructed on the surface and the ore will be marketed to test the values just as soon as possible The assays have been running as high as $160 in gold to the ton although it is not anticipated that the ore will average anything like this At the same time the managers of the work are most confident that the shoot is a permanent one and that it will show very satisfactory values when shipments are started

The Bonnie Nell is in the immediate vicinity of the Moose property and the vein which has now been opened and which runs parallel to that which the Moose so successfully mined several years ago is the extension of that opened in the Jo Dandy The company is conducting the work on its own account at this depth although in the upper levels lessees are at work in two promising veins one of which is presumably the same one which has shown the good ore at the bottom of the shaft

The property has the reputation of having some of the best built workings in the district The shaft and drifts are all much larger than those in the majority of prospects and the timbering has been done excellently It is thought that there is no property in this vicinity which has the same encouraging prospects as the Bonnie Nell

M. J. T. ANNUAL MEETING

The annual meeting of the M J T Gold Mining company was held yesterday afternoon in the offices of the company Out of the total amount of stock outstanding 1,150,000 shares there were represented at the meeting either in person or by proxy about 800,000 shares of stock The meeting was entirely harmonious and the following directors were chosen to serve the company for the ensuing year R P Davie J I Collier F P Day T J Bendle and J H House

The report of the president which was submitted to the meeting covered the history of the company since its organization during which time there has been no meeting of the stockholders, related to the various actions of the directors in settling adverse suits and acquiring additional property and the actions of the directors were ratified No extensive work has been done on the company's property consisting of 18 acres on Gold hill adjoining the Key West ground so there was little to report about the condition of the claims but there was a unanimity of sentiment that the ground was well worthy of active exploration and there was some discussion as to the best way of getting it under active work It is probable that some decisive steps will be taken in the near future

The treasurer reported that the company was slightly in debt, although there was some 4,000 shares of stock in the treasury Action was taken, however which puts the company entirely out of debt

The new board of directors will probably meet today to elect officers

---

The Jones Cox Shoe Co received 170 cases of new style shoes yesterday Mr Jones who is in the eastern market has secured many bargains and the firm is now able to supply the people of Colorado Springs with all kinds of shoes.

CHAMPION DRILLERS WILL CONTEST HERE

For the Most Handsome Prizes Ever Offered to Miners in the State of Colorado Will Be Witnessed by Thousands

All the rock drilling champions of the state will be in Colorado Springs during the Quarto centennial celebration

The greatest contest of its kind ever held will be seen and nowhere will such handsome prizes have been competed for

The idea of a rock drilling contest has taken on like wildfire in this city and it is bound to be witnessed by enormous crowds It is proposed to have a huge piece of Gunnison granite erected on a platform which will be placed between the grand stands Here the single and double teams will do their work urged on by the plaudits of the crowds The single handed champion driller of the state lives in Cripple Creek and has signified his intention of being here the champion double handed team are at Leadville and say they will come down the champion double handed team of San Juan are in Ouray and they are to be here also

The drilling contest is a splendid idea It will be the first time that Colorado Springs the great mining center of Colorado has made a serious effort to entertain the miners As a result the city will be visited by many hundreds of our friends in the mountains who like nothing better than to see such a contest The prizes are to be very handsome although the exact schedule has not yet been made They will however be quite numerous and given for different classes in single and double down drilling as well as uppers

At the meeting of the governing committee of the Colorado Springs Mining Stock association held yesterday a very handsome sum was voted towards the cost of the contest subject to ratification by a majority of the members of the exchange Another handsome donation has been made by the Quarto centennial committee and it is expected that there will be no difficulty to secure the remainder of the required amount from individuals and mining companies From $1500 to $2000 is needed to carry the affair through with success and do it better than it has ever been done before—which is the only way Colorado Springs wants to do anything

ONE CHANCE FOR KLONDIKE

Stockholders Must Contribute 25 Cents Per 1,000 Shares, or All Is Lost---Suit Comes Up July 25.

A circular was received in this city yesterday from the members of a committee appointed by the Cripple Creek exchange to inquire into the sadly disordered affairs of the Klondike Cripple Creek and Golden company Reciting the various disasters which the company had suffered at the hands of unscrupulous persons in the way of overissuing the stock to the amount of some 1,000,000 shares and the alleged jumping of the Klondyke claim the details of which are well known in mining circles the circular goes on to state that the committee has appointed an attorney to file an adverse against the location of the Cape Nome lode and that the case is set for trial on July 25, 1901

As there are urgent expenses the circular requests contribution on the part of stockholders of 25 cents for each 1,000 shares which the committee states will be sufficient to defray all the expenses They also state that they have a good chance of coming out victorious This contribution which is a very modest request compared to some which have been solicited by other mining companies is the only alternative for Klondike stockholders If they contribute (and it must be done by July 20), they may save what they have invested or a portion of it If they do not contribute all is lost The committee is working hard to save the property, and charging nothing for its services Contributions should be sent to [illegible] J Cella 201 Bennett avenue or to Clinton S Fletcher 262 Bennett avenue Cripple Creek who compose the committee

COLORADO SPRINGS MINING STOCK EXCHANGE

Springs July 16—The mar on change cannot be said tinued to improve The ruled were on the whole the day before Indeed and Felipse were almost examples of advancing there seemed to be a good these shares at decidedly The general run of the exceedingly light and total absence of any outside stocks of any class al were a few timid buying what below the market to be filled The decline to 61 had a dampening the little cheer which the brokers managed the little improvement and there was no evidence at the close of the afternoon trading that anyone was feeling especially bullish

Anaconda sold at 35 in the morning a low enough price as will be quite willingly admitted but in the afternoon 2 000 shares were exchanged at 33 Doctor opened at 64¼ in the morning and the last sale was at 61 (sell 30) Isabella however strengthened up to 44 and Pointer was somewhat stronger at 8¼ seller 30) One of the features of the call was the activity and strength of Elipse stock which opened at 11⅞ and closed at 13¼ The property is understood to be in an improved condition although there have been no developments which would warrant the decline of the last few weeks Golden Dollar was stronger at 6 and B H Ajax was higher at 4

EASTERN MARKETS

New York July 16—There was a show of strength in the early stock market today but it was mostly dissipated before the close The attention to the crop news and the reports over night of rains was a strong influence in the advance of the corn carrying railroads which extended from 1 to 2¾ in the most members of the group Atchison leading The sharp rally in the corn market late in the late and the large of the weekly government crop report depressed the corn roads again and just before the close St Paul fell to a sharp fraction under last night The government cotton report was considered favorable and was reflected in the comparative firmness of some of the southern lines The United States Steel stocks were apparently pegged and their unyielding support discouraged ere raiding tactics on the part of the bears but the insiders who bought the stock had to accept a continual stream of liquidation all day There seemed to be influential buying also of the Pacifics grangers and southwesterns but it consisted in the acceptance of offerings rather than of active bidding for stock and not much resistance was offered to the late reaction The banks show no evidence of a desire to foster renewed speculation and are asking rather higher rates for the money Call loan rates receded but without resulting in any actual pressure of money to loan Sterling exchange was also easier this morning although it stiffened again before the close Favorable progress was reported in the London stock exchange settlement the support accorded the United States Steel stocks seeming to reassure sentiment there The discount rate at Berlin was easier and the situation there was reported to be sensibly ameliorated New York exchange at Chicago rose again to 25 cents premium from 5 cents premium yesterday The sub treasury is contributing to the money market and that institution s debit at the clearing house today ran up to $2 6 0 85 due to heavy pension payments and to payment of a check for Klondike gold deposited on the Pacific coast The relaxation thus variously indicated of requirements upon the New York money market was the important factor in the firmer and quieter stock market today The heavy liquidation of last week and yesterday morning was thus shown to be unnecessary The e is no disposition however to encroach upon the money market supplies which it is believed will be certainly needed at an early period in the crop movement Among usually inactive stocks wide advances worthy of notice were in Chicago and Eastern Illinois 6¼ Texas and Pacific land trust 5 General Electric 5 (afterwards lost) Laclede Gas 7 Des Moines and Fort Dodge 4¾ Consolidated Gas 3½ and North American 3

The railroad bond market was quiet and irregular with a narrow range Total sales par value $1 435 000 United States 7s the old 4s and the 5s advanced ¼ and the new 4s declined ¼ per cent on the last call

Bar silver 58¼ Mexican dollars 46¼

State bonds easy government bonds irregular railroad bonds irregular

The London Market

New York July 16—Commercial Advertiser s London financial cablegram The stock market today was more cheerful and the natural reaction after the slump and demoralization of the last few days was encouraged by the Cape premier s strong speech on the war In consols the bears scurried to cover causing a rally of ¾ to 92¾

The foreign markets were more cheerful

American stocks opened hard but business was confined to two or three hands Berlin bought slightly but most orders from New York were feverish and fluctuating Attention was chiefly centered on Atchison Union Pacific and Southern Pacific United States Steel was comparatively steady

Chicago Grain and Provisions

Chicago July 16—The crop situation caused a sharp rally in the grain market today and September wheat closed 1c September corn 1¾@1¼ and September oats ¾@⅞c higher Provisions closed 5@10c lower

The weather remained the all potent factor in wheat today although at the opening weak cables joined with reports of better weather in the northwest were influential in considerable liquidation of wheat September opening ¼@⅜c to ⅜@½c lower at 66c to 65¾c Aggressive local support and reports that New York stock exchange traders were buying steadied the tide almost immediately During the rest of the day reports were received showing that the situation in the spring wheat territory is practically unchanged Some claimed considerable damage in South Dakota The official weather forecast gave slight promise of better conditions Commission houses sold with considerable liberality on small bulges but the market easily handled all offerings and September steadily advanced to 6 ⅜c The close was firm 1c higher at 67¼@67⅜c Exporters reported 23 loads taken Seaboard clearances in wheat and flour were equal to 940 000 bushels while primary receipts were 746 000 bushels compared with 31 000 a year ago Local receipts were 350 cars 277 of contract grade Minneapolis and Duluth reported 290 cars against 1 3 last week and 2 3 a year ago Bradstreet s report of the world s visible showed a decrease of 4 400 000 bushels

There was a heavy trade in corn Scattered reports of rain the appearance of clouds or of cooler weather resulted in a rush of sales at the start September opening ⅜c to 1⅜c lower at 4 to 48c Numerous other reports showing that considerable damage had been done already and climatic conditions were still against an even ordinary crop of corn and the heavy run of hogs indicating a fear among farmers that they would be unable to feed their swine caused a rally to 50¾@50⅞ and the close was strong 1¾@1⅞c higher at 50⅜@50⅝c Receipts were 5 5 cars

Oats were moderately active and displayed a firmness independent of the strength developed in corn Local shorts covered and buying for the country account combined hot weather being the chief influence Receipts were 164 cars September sold between 30¾c and 31¾c and closed ¾@⅞c higher at 31⅜c

Provisions were dull and heavy owing to the heavy run of hogs and a drop in prices at the yards Fluctuations were narrow closing prices being about as they were at the opening September pork closed 5c lower at $14 10 September lard 5c lower at $8 7 and September ribs 10c depressed at $ 85

Estimated receipts tomorrow Wheat 300 cars corn 190 cars oats 50 cars hogs 25,000 head

CRIPPLE CREEK MINING NEWS

Economic Mill Again Running With Full Force---Red Spruce Preparing Shipment---Ore at 1,000-foot Level in the Portland.

Special to the Gazette

Cripple Creek July 16 The Economic mill is running with full force again all troubles having been satisfactorily settled by the Woods Investment Co and a few of their employes who struck for a little less than 25 cents per day in their pay

The Red Spruce company owning the Red Spruce claim on Gold hill will make its first shipment since the present ownership went into effect on the last of this month The consignment will consist of two carloads amounting to about 40 tons of ore the value of which is hard to gauge owing to the samples which have been had from four to 6 ls gold silver copper and lead The ore will be treated for all of the metals

The Midway company has again commenced sinking in the main workings on Gold hill The shaft is down to a depth of something over 800 feet and steady shipments are being sent out from the lower levels of the property

Miller & Downes operating the lease on the Jackson workings of the Gold Sovereign G and Bull hill will tomorrow send out a 30 ton shipment of five ounce ore The ore is being mined at a depth of 300 and 400 feet from the surface where extensive development work is also being carried on

While no work is being accomplished at present on the Worcester workings of the Central Consolidated company although the lease has been transferred to other parties Mills & Co working the Hopps Vermillion Holding the Unexpected sent out a 30 ton shipment lately It is expected to return from one and a half to two ounces in gold to the ton These lessees recently put down a hoist and connected up with the tunnel level in which they made their strike and are now developing the vein at a depth of about 80 feet from the surface

Assays of nearly three ounces in gold to the ton are being obtained from the Ironclad leasing company s 400 level on the Ironclad Block No 1 Connections have been made between the bottom level and a winze sunk from the 400 foot depth and the ore in the bottom is showing up well Shipments are now being sent out regularly

The ore in the 1 000 foot level or the natural depth of 1 8 feet from the surface in the Portland is showing up in greater proportion every day with an increase in average values The permanency of the ore body at this depth is giving the Portland management not to speak of nearly every other management in the district a great deal of encouragement in prosecuting deep mining

An 18 ton shipment of smelting grade ore was closed yesterday from the Santa Rita mine on Straw mountain It is thought that the ore will run as high as $.00 to the ton as it is the higher grade mineral from the deepest workings the 600 foot level This level is showing up a wider ore body with considerable of an increase in average values

LEASING COMPANY

Organized in Denver to Operate on the Cripple Creek Consolidated and Work Properties

✣ ✣ ✣ ✣

The Cripple Creek Consolidated company has just sanctioned an assignment of the Finn lease on the Colorado Boss claim to the Tunnel Mining and Leasing company a company just incorporated in Denver and the Work company has taken a similar action In regard to the lease which the same persons owned on the Morning Glory No 4

The new company has been incorporated by W S Hollister, R I Stauer and Milton Smith Continental Oil people who have put a considerable amount of money into Cripple Creek They were interested in the lease before it was assigned to the company which they have incorporated and all the interests in it excepting those which they owned have been bought out

There has been a large amount of work accomplished in the six months during which the lease has run Work was started from the Ophelia tunnel in a party drift along the line between the Boss and Morning Glory line and continued for some 600 or 700 feet A considerable amount of drifting was also done in the ground of both companies in veins which were cut in the progress of running the main drift but no permanent body of ore was encountered although several very promising showings of ore have been obtained

It is understood that the organization of the company will enable work of a very active nature to be carried on and those interested are hopeful of opening up good ore in time The work which has been done was carried on by hand drills having been employed The lease has still 18 months to run

✣ ✣ ✣ ✣

MINING NOTES AROUND TOWN

The new board of directors of the Key West company met yesterday afternoon and elected the following officers to serve for the ensuing year P P Davie president J J Franklin vice president J H House secretary and F W Stehr, treasurer The meeting was a short one and little discussion was indulged in regarding the future policy of the board but it is understood that active steps will be taken at once to get all the property under development and that every effort will be made to make the coming year a prosperous one

GOOD REPORT FROM THE SHERMAN PROPERTY

P H Newman superintendent of the Sherman properties near Hinsdale was in the city yesterday with some very fine specimens of ore to show from a vein which has just been cut in the Sherman group In running the main crosscut with the intention of opening the main vein at considerable depth a new vein was encountered which promises to be a valuable addition to the mineral resources of the mine The ore is a gray copper, carrying good values in silver and promises to yield easily to treatment. Mr Newman reports that the property is in a most encouraging condition and that work is progressing on a good scale It is expected that the main vein will be encountered in a short time

FANNY RAWLINGS ORE RUNS $109 66 NET PER TON

Returns were received yesterday at the offices of the Fanny Rawlings company in this city from a shipment of about three tons marketed from the South Winnie lease on this company s property in Leadville The shipment was settled for at the rate of $109 6, net per ton the distribution being 20 9 ounces in gold and 79 3 ounces silver The ore is coming from the shoot which has been opened for some time at the 200 foot level An officer of the Fanny Rawlings company is authority for the statement that work will be started in the main shaft which is not cased with the expectation of reaching the contact after a certain amount of sinking has been done The company has been receiving liberal royalties from the lessees

ANOTHER SHIPMENT FROM THE DEADWOOD PROPERTY.

A shipment of 20 tons of ore has just been closed by Perkins and Buchner leasing on the Deadwood No 2 and is expected to run better than six ounces in gold to the ton The ore is all coming from the shoot which has been opened in the 00 foot level of the mine and from which ore of excellent values has been shipped The car sent out previous to this consignment was settled for at the rate of $134 60 in gold to the ton an improvement over the one sent out before that which averaged $11 50 The shoot at this level has now been developed for about 70 feet and the shoot averages from eight to 14 inches of the values indicated by the settlements

EAST BEAVER COMPANY HAS RESUMED WORK

Work has been resumed on the property of the East Beaver company located about 1½ miles east of Cripple Creek The work is being done on company account and has been started with a force of 10 men A foot of medium grade ore has been opened in a promising vein and it is thought that after greater depth has been gained than is now afforded by the shallow shaft the values will run pay In order to gain this depth a tunnel is to be run into the hill for a distance of 600 feet which will cut the vein at a depth of 500 feet The operations of this company have encouraged a considerable amount of prospecting in the neighborhood which is located some five miles down the creek from the Cheyenne mountain stage road

HOISTING ORE FROM THE NEW DAMON STRIKE

The development work in the ore recently opened in the Burklebank shaft on the property of the Damon company on Bull hill has now progressed far enough to allow hoisting to begin and the first ore is now being brought to the surface The work which has been done also indicates that the ore is of considerable consistency and it is expected that it will hold out well The find it will be recalled, was made at a depth of 40 feet from the surface and although that is considered rather shallow for permanent ore bodies some of the best shoots yet uncovered in the Damon have been at a depth hardly greater than that From present appearances this shoot will be as good as any which the ground has ever shown The group is now making a production of about 15 tons a day Although in connection with the bear rumors about Isabella it has been stated that all the mines on Bull hill had practically no ore the production which the Damon is making helps to refute the charge

PROGRESS OF STRATTON S WORK AT GREAT DEPTH

Work is progressing at a very satisfactory rate on the different properties controlled by W S Stratton The shaft on the Orpha May has now reached a depth of 1,300 feet and a station is being cut at that depth This is now one of the deepest workings in this section of the camp In the John A Logan sinking is to be soon resumed a station having recently been cut at the 1400 foot depth and a drift started in the direction of the vein The Orpha May property will begin shipments directly and it is expected that they will be maintained at regular intervals from now on and the American Eagles are also to be included in the list of regular shippers In the Poverty Gulch group the Bella and Abe Lincoln will for the present make up the production from this quarter of the Stratton properties

CROSBY-EHRICH SYNDICATE'S MARKET LETTER

Colorado Springs July 13 1901

Although in practically a stationary condition there have been, nevertheless a few features to the mining stock market for the past week Taking the market as a whole prices have remained almost stationary though there have been a few fractional advances and an equal number of declines The meritorious stocks such as Elkton Portland and Butterfly Terrible and others of this class have remained steady at the prevailing figures of a couple of weeks ago These companies are open and fair in all of their statements to the public and there is apparently little if any desire upon the part of investors to separate from such good interest bearing securities

What is up in Isabella is a question asked by all and one which if answered correctly would probably be worth many thousands of dollars to the persons possessing the information There is certainly not a more erratic security throughout the entire list This is not the first time Isabella has slumped with startling rapidity such occurrences have become quite common with this stock, and it was for this reason alone that we have continually and unceasingly cautioned clients and prospective investors to leave it entirely alone. No one but the management knows what the physical condition of the property is today and they are certainly not allowing their knowledge to become public property It is quite within the bounds of reason to assume that the recent action of the directors in passing the usual quarterly dividend had a certain depreciating effect upon the price of the stock but it is not reasonable to assert that this is responsible for the 20 cent decline that has taken place It is highly probable that the reason for this decline will never be known The history of the stock since the formation of the company has been a series of surprises We should not be surprised to see the stock drop to 25 cents a share and perhaps would be even less surprised should it suddenly react and go to above one dollar again

BONBRIGHT & CO.'S MARKET LETTER

Colorado Springs

The midsummer dullness inevitable in the market is distinctly in evidence week but while the market is lethargic and the public different, the mines still [illegible] golden streams while the dividends are increasing in amount those for the month of July promising to be the largest of the year The annual meeting of the stockholders of the Elkton company was one of the important events of the past week at which reports were presented which stockholders found very pleasant reading Notwithstanding the fact that the Elkton s water situation was probably the most serious ever encountered in Cripple Creek, yet the management mastered the difficulty completely The mine shipped during the fiscal year 19 0 3 tons of ore of a gross value of $1 1 104 6 There was a net profit to the company of over $ 00 000—and $100 000 was added to the treasury fund during the same period

Few mines in Colorado have made a better showing than the Elkton since October 1893 but the most gratifying of all is the steady increase in values year by year For the year ending May 31 1899 the gross value per ton was $20 80 which during the following year was increased to $44 79 and for year ending May 31 1901 to $60 33 During the years of the company s existence the Elkton has produced over $4 000 000 and paid out $1 000 000 in dividends to its stockholders—a remarkable exhibit indeed, and the future of the mine was never brighter than at the present moment

Rumors concerning the sale of the Portland mine will not down The officers of the Portland company have denied these rumors repeatedly but each week a new story is given circulation The latest rumor is to the effect that a control has been sold in London for $3.00 per share or on a basis of $9 000 000 for the mine This has been emphatically denied and it is the consensus of opinion among those in a position to judge the merits of the Portland, that a control could not be purchased for $5.00 per share The recent discovery at a depth of 1 000 feet has turned out better than was anticipated in the beginning The shoot has been proved at a distance of over 100 feet showing a solid body of ore five feet across and carrying a streak 18 inches in width which returns values of over 60 ounces [illegible] in gold, to the ton.

SPORTING NEWS AND... NOTES

MILLIONAIRES CHANCE TO WIN

And They Took Advantage of the Opportunity.

THE GAME IS PROTESTED

St Joe Claimed That Brashear Should Not Have Worn a Rich Man's Suit—President Hickey Will Decide the Question

The Millionaires won the first game of the home series yesterday in a walk. It was evident from the time when Bandelin sent the first ball pitched for a long single to right field that the wealthy men had on their winning suits. They played good ball and the game was interesting and entertaining throughout. The work of the Saints was loose and at times ragged, the players often appearing more like a lot of sulky school boys than professionals. The work of several men, among them Honeyman at center field, saved the reputation of the team.

Parvin pitched a good game allowing [illegible] In the second inning Brashear the [illegible] tered. He had good control and steadied down whenever hits meant runs. His support was all that could be asked for. McDonald was easy for the locals. He was wild at times and the heavy hits in the early innings rather shook his nerve.

In the second inning Brashear, the new first baseman secured from Kansas City, with a mighty swing of his bat lifted the first good ball that came to him over the left field fence, securing a home run and waking up the grand stand. Tannehill went out on a foul, but Big Ream followed Brashear's example and put the ball over the fence in the same spot. He walked around the bases, and Donahue and Parvin retired the side by fanning.

The Millionaires had another inning in the fourth, when they secured three runs. McDonald threw four balls straight to Shay, who walked to first and stole second. Brashear lined out the stick, making a two-base hit and scoring Shay. Tannehill sent a long fly to right and secured second as McKibben failed to [illegible] the [illegible]. Ream came to bat again and the fielder in the left garden moved back to be ready for the fence, but found his mistake when Ream sent a short fly over third base, scoring Brashear. Ream was caught napping off first. Donahue hit to Houston and Tannehill scored on Hulswitt's error. Parvin fanned and Bandelin retired the side by an easy liner to first.

Hemphill singled to Honeyman in the fifth and was advanced on Hernon's sacrifice. Shay made a beautiful three bagger, scoring Hemphill, and was brought home by Brashear's bunt.

Donahue scored in the sixth by a single through short, a steal and a sacrifice by Bandelin.

St Joseph's only run was made in the sixth inning by Hall, who knocked a two base hit and was advanced by Schrall's single and Doolin's sacrifice.

The great feature of the game as viewed from the grand stand was a catch made by Honeyman in the center field. Brashear sent out a hot fly which everyone supposed would be good for a single at least, but Honeyman made a lively sprint and a long dive, then turned a complete somersault and came up with the ball in his hand.

The game was played under protest by St Joseph, who learned through a telegram from Tebeau that Brashear was wanted by the Blues. It seems the Kansas City manager decided after the man was gone that he could not afford to lose him, and now he attempts to annul the contract made with Mullen and [illegible]. The protest will be carried before President Hickey today, but the local managers say there is no adequate ground for a protest.

The score follows:

Summary: Earned runs—Denver [illegible], Kansas City 1. Two base hits—Dunden, Eyler, Ketcham. Three base hits—Dunden, Jack Sullivan. O'Brien home run—Eyler. Struck out—By Gibson 3, by Eyler [illegible]. Bases on balls—Off Gibson 4. Wild pitch—Eyler 1. Hit by pitched ball—Miller, Preston. Umpire—Davis. Time of game—two hours and five minutes.

DES MOINES BUNCHED HITS

Minneapolis, July 16.—Swormstedt had a bad time in the third inning and Des Moines won the game. Barber kept the hits scattered. Attendance [illegible]. Score:

		R	H	E
Minneapolis	0 1 0 0 1 0 0 0 1	3	8	2
Des Moines	0 0 5 0 0 0 0 0 [illegible]	5	[illegible]	2

Batteries—Swormstedt and McConnell; Barber and Cote.

LONG BATTING

St Paul, Minn, July 16.—Cogan's three base hit followed by Ryan's home run in the fifth were the features of today's game. Attendance [illegible]. Score:

		R	H	E
St Paul	0 0 [illegible] 0 [illegible] 0 0 0 0	4	10	0
Omaha	0 1 0 0 0 0 0 1 0	[illegible]	[illegible]	3

Batteries—Cogan and Wilton; Pace and Buckley.

NATIONAL LEAGUE

PITTINGER WAS INVINCIBLE

Chicago, July 16.—Pittinger was invincible today, holding the locals down to four scattered hits. Errors by Moran and Dexter and a three bagger by Dexter scored Chicago's only run. Long's fielding was of a sensational nature. Attendance [illegible]. Score:

		R	H	E
Chicago	0 0 0 [illegible] 0 0 0 0 0	[illegible]	4	4
Boston	0 0 0 [illegible] 4 0 0 2 0	[illegible]	11	[illegible]

Batteries—Hughes and Kling; Pittinger and Kittridge.

Summary: Two base hits—Green, Demont, Kittridge. Three base hit—Dexter. Struck out—By Hughes [illegible], by Pittinger 4. Bases on balls—Off Hughes [illegible]. Umpire—Cunningham.

COSTLY ERRORS

Pittsburg, July 16.—Pittsburg's miserable fielding lost the game. Each of the four errors netted a run for Philadelphia and a base on balls followed by two hits scored the other two. Donahue pitched good ball. Score:

		R	H	E
Pittsburg	0 0 0 0 0 1 0 0 0	[illegible]	[illegible]	[illegible]
Philadelphia	1 [illegible] 0 1 0 0 0 [illegible]	6	11	[illegible]

Batteries—Phillippi and Zimmer; Donahue and Jacklitsch.

Summary: Earned runs—Pittsburg [illegible], Philadelphia [illegible]. Two base hit—Ritchey. Three base hit—Bransfield. Home run—Delehanty. Bases on balls—Off Phillippi [illegible], off Donahue [illegible]. Struck out—By Phillippi 4, by Donahue 2. Umpire—Emslie.

AMERICAN LEAGUE

LOST IN NINTH

Cleveland, July 16.—Cleveland went to pieces in the last inning and presented the game to Boston. Young was hit hard in the [illegible] inning and it was only through sensational fielding that he won out. Attendance [illegible]. Score:

		R	H	E
Cleveland	1 0 0 0 0 0 4 0	[illegible]	10	[illegible]
Boston	0 [illegible] 1 1 0 3 0 [illegible]	10	[illegible]	3

Batteries—Moore and Wood; Young and Schreck.

SENSATIONAL PLAYING

Detroit, July 16.—The features of today's game were Coughlin's work at third, a great stop by [illegible] and the work of [illegible] and Elberfeld. Clark was put out of the game for talking back to the umpire. Attendance [illegible]. Score:

		R	H	E
Washington	4 0 1 0 0 0 0 0 [illegible]	[illegible]	[illegible]	
Detroit	4 0 1 0 0 0 0 0 0	5	10	0

Batteries—Patten and Clark; Crady, Cronin and Shaw.

PINNACLE PARK OFFERS PRIZE FOR BASEBALL

Special to the Gazette.

Cameron, Colo, July 16.—The management of Pinnacle park has offered a cash prize for the best baseball team in the district. A league will be formed comprising the towns of Gillett, Cripple Creek, Goldfield, Cameron and possibly Anaconda, and a schedule of games arranged to continue until Labor day, when the purse will be awarded the team having the highest percentage. All teams in the league will be uniformed.

Pinnacle park is open daily and delegates to the Transmississippi congress are admitted to the park free.

Drop into the Jones Cox shoe store and see the new line of ladies shoes at $1.50. They were bought right and will be sold right.

SPORTS PROGRAM FOR TOMORROW

Merchants' Holiday Picnic Will Be One of the Biggest and Best Events This Year.

The merchants of Colorado Springs will hold their first annual picnic tomorrow and it is going to be one of the merriest outings ever enjoyed in this vicinity. The celebration will begin with a parade in the city in the morning and will not end until trains on the Short Line bring the picnickers home from Rosemont in the evening. The sale of tickets indicates that there will be over a thousand persons at the picnic.

The parade will form at [illegible] o'clock tomorrow morning on North Tejon street near the North park. The Midland band will head the procession, in which nearly all local merchants will be represented. Lodges and trades unions have also been invited to take part.

The line of march will be south on Tejon street to Pikes Peak avenue, east on Pikes Peak avenue to Nevada avenue, south on Nevada avenue to Cucharas street, west on Cucharas to Tejon, north on Tejon to Pikes Peak, west on Pikes Peak avenue to the depot.

The Short Line has arranged a special train service to and from Rosemont, which is one of the most delightful mountain resorts along the new railroad. The first train for the picnic grounds will leave at 8 o'clock. Tickets may be secured from merchants or at the Rio Grande depot, the rate being $1 for the round trip. Sandwiches, lemonade and cigars will be distributed free at the grounds. An excellent program of sports has been arranged and the Midland band will give concerts.

The interest taken by the business men in the event is shown by the fact that over a hundred stores will be closed during the day. The public is invited to join the merchants in their outing.

The program of sports, including the prizes, is as follows:

Fat Men's Race—Prize, Broadway Special hat, donated by Alex Reltschel.

Business Men's Daughters' Race—First prize, pair silk hose, donated by New York store; second prize, pair kid gloves, donated by Johnson & Willour Mercantile Co.

Race for Boys under 15 years of age—Prize, pocket knife, donated by John Clough.

Race for Girls under 15 years of age—Prize, parasol, donated by Kaufman & Co.

Potato Race—First prize, bottle Rose Leaf perfume, donated by J. B. Davis, druggist; second prize, bottle of perfume, donated by C. F. Smith, druggist.

100 yard Race, open to all—First prize, hat, donated by Wm. Orpenheimer; second prize, merchandise, donated by Holbrook & Perkins.

Three legged Race—First prize, 1 pair gloves, Perkins Department Store; second prize, 1 pair gloves, Giddings Bros.

Sack Race—Prize, pocket knife, donated by Lowell Meservey Hardware company.

Prize Waltz—Gentlemen's prize, $3.00 Special hat, donated by Robbins, clothier; ladies' prize, pair slippers, donated by Jones Cox Shoe store.

Tug of War—Between wholesale and retail clerks. Prize, 50 cigars, donated by Oppenheim & Son.

Baseball Game—Commission Men vs. Butchers. $15 in cash for winners, $5.00 in cash for losers, given by George Giles.

Secretary of grounds, Simon Freidenman, manager of People's store.

The committee on sports is composed of Messrs. Ganeles, Ferguson, Girling and Draper. The marshals at Rosemont will be C. I. Smith, Wilkes Edwards, F. C. McFarland and H. C. Koh.

One of the events tomorrow which will be one of the most interesting events of the season in athletics is a race between Brooks Irione and a relay team of three men for five miles. The relay team will be composed of P. H. Edwards, S. D. Burris and A. Wyatt. The track will have 16 laps to the mile.

The various committees held a meeting in A. O. H. hall last night, during which arrangements were completed with the Short Line for the train service. Besides the regular trains there will be a special leaving this city at 2 o'clock. It will be run in as many sections as necessary. The Midland band will be on this train and there will be stirring music as the train winds its way through the mountains.

Deposit Credited to Wrong Mary Young

Not long ago the clerks in the First National bank muddled the accounts of two Mary F. Youngs and one of them is said to have spent the other's money. As a result the case of the First National bank against Mary F. Young was on trial in the district court yesterday. It will go to the jury today.

According to the testimony, H. A. Young, broker, deposited $35 to the credit of his wife, Mrs. Mary F. Young. A mistake was made and the money was placed to the credit of another Mary F. Young, who is now the defendant in the suit. It is alleged that the second Mary F. Young said nothing when she found that her bank account was increased, but proceeded to spend the $35. Now she has only a little over $[illegible] in the bank.

The bank had to recompense the first Mrs. Young. The second was sued for the amount credited to her by mistake. The case occupied the attention of the court nearly all day. Judge Cunningham refused to instruct the jury to bring in a verdict for the defendant.

By order of Judge Cunningham the case of R. F. Bartlett vs. A. W. Whitback was dismissed at the cost of the defendant.

Broadmoor Now the Newport of the West

"Broadmoor is certainly the Newport of the West," languidly lisped a pretty girl to her companion on their return from an evening spent at the fashionable resort.

"Why, here I was over half way across the continent, never dreaming of seeing even a familiar face, and whom should I see just as soon as I came here but a coterie of my most intimate friends from Boston and New York. Some Lakewood people were also there, and I met several charming women from London and a gentleman and his wife from Melbourne, and a host of delightful people from everywhere."

Last night certainly was a gay, giddy time for Broadmoor. The orchestra played on the wide encircling piazza and dancing was indulged in here as well as in the ball room. The veranda dinner parties that are in such popular vogue with the smart set seem to be growing in favor daily.

Mr. and Mrs. Chester A. Arthur had a distinguished party of English visitors to dine with them. Miss Arthur, who is spending the summer here, was one of the party. Mrs. J. S. Tucker and Miss Oma Field also entertained quite a large party at dinner. J. B. Estis, who is back again for the summer, and John J. Key also had dinner parties. Everybody remained to dance and to enjoy the concert.

The management has decided to omit the usual entrance fee to the Casino when parties are entertained at dinner. This concession has made large parties more popular.

$3.00—DENVER AND RETURN—$3.00 via Colorado and Southern railway every Sunday from May 15 until October 15. Eight trains each way daily. Office 15 N. Tejon St.

BLOCKADED

The back aches because the kidneys are blockaded.
Help the kidneys with their work.
The back will be relieved.
Lots of proof that Doan's Kidney Pills do this.
It is the best of proof for it comes from Colorado people.
Mr. M. J. Wilt, of 505 Valley street, retired farmer, says: "Doan's Kidney Pills relieved me of terrible distress from backache and difficulty with the kidney secretions. I could hardly turn in bed and the too frequent action of the secretions was very annoying. I procured Doan's Kidney Pills at Jones & Weller's drug store, 109 North Tejon street, and took them according to directions. I felt better in a short time and was finally cured."
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.
Remember the name—Doan's—and take no substitute.

Consumptives Who Hav[e] Come to Colorado

With the intention of becoming cured by the climate and then re[turn] had better thoroughly investigate similar cases. The sooner you climate does not cure consumption, the more time and money Climatic conditions help the consumptive, they arrest the progress but never cure. The bacilli become dormant, but are still alive a active again quickly in a lower altitude. To cure consumption you and expel the bacilli, cast off the diseased portions and heal ove places. When this is done consumption is cured and

You May Safely Return East to Live.

The Shepard Treatment for consumption does these things. It cured patients are living safely in every State in this Union. If you can correspond with them. Dr. Shepard will furnish their addresses and local references as well. Consumptives who have for the summer can, by taking the Shepard Treatment at once, retu homes in the fall and, if not thoroughly cured, can complete the and cure at home. For many years consumption was thought to be Science has at last conquered it through the Shepard Treatment w product of Dr. Shepard's twenty-five years special study of dis Lungs and Throat. In the course of his investigations Dr. Shep amined many thousands of consumptives. He now gives

FREE EXAMINATION OF THE LUNGS AND THROAT.

To all sufferers between 11 and 12 a. m. and 1 and 5 p. m. excep These examinations are thorough and exhaustive and absolute cost or obligation.

SUMMER RESORTS

NOTICE TO FISHERMEN.

The district court by injunction has stopped the pollution of the streams in Gunnison county. The 450 miles of famous trout streams in this county will again furnish the old time sport they once did. The La Veta hotel at Gunnison is centrally located for reaching all of them within ten miles. In the vicinity of Gunnison more trout weighing 4 to 12 pounds have been taken than from any other stream in the world. Yours respectfully, La Veta hotel, Gunnison, Colo.

To whom it may concern:
Notice is hereby given that the city of Colorado Springs, Colorado, will, on the 5th day of August, A. D. 1901, at the Chemical National bank of New York city, New York, or at the office of the city treasurer of the city of Colorado Springs, Colorado, pay in full and discharge one (1) bond of one thousand ($1,000) dollars, numbered one (1) of a series of ten (10) bonds of the denomination of one thousand ($1,000) dollars each, numbered one (1) to ten (10) inclusive, bearing six (6) per cent. interest, issued by the city of Colorado Springs, Colorado, on the 1st day of July, A. D. 18.., maturing on the 1st day of July, A. D. 19.., the city of Colorado Springs, Colorado, reserving the option to pay said bonds or any part thereof on the 1st day of July, A. D. 190., said bonds being issued and known as bridge and viaduct bonds, and being sold in the first instance to A. M. Kidder & Co., Boston, Mass.
The said bond number one (1) above mentioned the city of Colorado Springs, Colorado, intends to pay on the 5th day of August, A. D. 1901, and will cease to bear interest after the 5th day of August, A. D. 1901.
Edward C. Davis,
Acting City Treasurer of Colorado Springs, Colorado.
First publication, July 6, 1901.
Last publication, August 5, 1901.

Notice is hereby given that the deferred annual meeting of the stockholders of The Columbia and Cripple Creek Gold Mining company will be held at the office of the secretary, room 1, Exchange Bank block, Colorado Springs, Colo., on Tuesday, July 23rd, 1901, at 4 o'clock p. m., for the purpose of electing a board of directors for the ensuing year, to consider and act upon a proposition to be presented in writing at such meeting for the sale of the east half of block No. 16 as platted for the company by Buckraft & Country, and being a portion of The El Paso Placer claim and being a tract of about 6 acres, to amend section one of the articles of incorporation so as to read: "The corporate name and style of our said company shall be The Sylvia Gold Mining company," and for the transaction of such other business as may properly come before the meeting. The books for the transfer of stock will close at 12 o'clock noon on Monday, July 22nd, 1901, and will reopen immediately after the adjournment of the meeting.
J. F. Lilly, Secretary.
Colorado Springs, Colo., June 22, 1901.
First publication July 12, 1901.
Last publication July 22, 1901.

Colorado Springs, Colo., June 24, 1901.
To the Stockholders of The Lucrative Mining Company:
Notice is hereby given that a stock dividend of one share of the capital stock of The Lucrative Consolidated Mining Company for each share of the outstanding stock of the Lucrative Mining company has this day been declared by the board of directors of The Lucrative Mining Company, payable on Friday, July 26, 1901, to stockholders of record July 2., 1901, at 12 o'clock noon. Books for the transfer of stock will close July 22, 1901, at 12 o'clock noon.
By order of the board of directors.
J. H. House, Secretary and Treasurer.
Room 3., Durkee Building.

DIVIDEND NUMBER 14
Amount $..,.00.00. Total to date $4.. ...
Notice is hereby given that a regular quarterly dividend of three (3) cents per share and an extra dividend of two (2) cents per share has been declared upon all the outstanding stock of The Vindicator Consolidated Gold Mining company, issued to date.
Payable July 25th, 1901, to stockholders of record July 20, 1901.
By order of the board of directors.
F. J. Campbell, Secretary.
The International Trust company, Denver, Colorado, transfer agents.

THE GOLD KING MINING CO.
Dividend No. 10
Notice is hereby given that a dividend of 3 cents per share has been declared payable to the stockholders of The Gold King Mining Co. of record July 20th, 1901. Transfer books will close Monday, July 15th, 1901, at 4 o'clock p. m. and reopen Monday, July 22d, 1901, at 10 o'clock a. m.
By order of the board of directors.
C. H. Dudley, Secretary.

The annual meeting of the stockholders of the San Isabel Mining & Milling company for the election of directors and the transaction of such other business as may properly come before the meeting will be held at Colorado Springs, Colorado, August 31, 1901.
J. N. Fitts, Secretary.

Considerable other business is to be transacted and a large attendance is expected.

White's Cream Vermifuge not only effectually expels worms, but is unequaled as a tonic, and is a certain and permanent cure for chills and fever in children. Price 25 cents. Hefley-Arcularius Drug company, 21 South Tejon street.

ELKS' DAY.
CRIPPLE CREEK CARNIVAL EXCURSION VIA SHORT LINE THURSDAY, JULY 18.

Rate $2.25 round trip. Return limit July 22. Short Line trains leave D. & R. G. station 2:50 a. m., 8 a. m., 10:35 a. m. and 4:05 p. m.

Another Excursion to Buffalo Thro' the Lakes.

The success of the Burlington's first personally conducted excursion to the Panamerican exposition, encourages us to organize another.

The date which has been selected is Thursday, July 18. Sleepers for Chicago will leave Denver at 10 p. m. that day. Twenty-six staterooms aboard the "North Land," sailing from Chicago 2:30 p. m., July 20, and eight aboard the "Manitou," sailing at 5 p. m. same day, have been reserved. These are the finest vessels on inland waters. Rates vary from $52.50 to $54.20 for the round trip. Party will be in charge, as far as Chicago, of an experienced man who will relieve members of all bother about baggage, transfers, etc.

The first excursion left Denver Thursday, June 20, and its members were enthusiastic in commending the perfection of the arrangements for their comfort. The second excursion promises to be even more successful than the first. Folder giving details will be mailed on request. Sleeping car berths and staterooms can be reserved at any time the sooner the better.

G. W. Vallery,
General Agent, Burlington Route, 1039 17th Street, Denver.
